

STATEMENT OF ACCOUNTING POLICIES

Statement of Reporting Entity

The Christchurch City Council is a territorial local authority formed under the Local Government Act 1974 (as amended).

Measurement Base

The measurement base adopted is that of historical cost as modified by the revaluation of certain assets.

Specific Accounting Policies

The following specific accounting policies which materially affect the measurement of financial performance and the financial position have been applied:

(a) Fixed Assets

Fixed assets have been divided into three broad categories:

(i) Operational Assets

Operational assets include land, buildings, furniture and office equipment, fixed plant, vehicles and mobile plant. Operational assets are valued at depreciated replacement value at 30 June 1991 with additions recorded at cost. The only exception is land and buildings that are revalued to net current value on an existing use basis every three years. All operational assets with the exception of land are depreciated and details of the depreciation methods and rates are noted below.

(ii) Infrastructural Assets

Infrastructural assets are the fixed utility systems. They include roads, footpaths, bridges, traffic signals, water, sewerage and drainage systems.

Infrastructural assets were valued as optimised depreciated replacement cost except for land under roads that was valued at 30 June 1992 by Quotable Value NZ at its rating value. Additions to Infrastructure Assets since valuation are recorded at cost.

Infrastructural assets are also depreciated and details of the depreciation methods and rates are noted below.

(iii) Restricted Assets

Restricted assets cannot be disposed of because of legal and other restrictions.

They include:

- Land and buildings with restrictions on sale - eg, Reserves
- Trust Housing
- Library books - New Zealand Collection
- Properties held in trust for other organisations
- Works of Art

Restricted assets are not depreciated except for Trust Housing and Historic Buildings. These assets are valued on the same basis as Operational Assets.

(b) Depreciation

Depreciation is provided in respect of an operational and infrastructural asset. Depreciation is included in each cost of service statement and is an accounting method for writing off the cost of an asset over its estimated useful life. Where it is not shown as a line

item it is disclosed by way of note.

(i) Operational Assets

Depreciation is on a straight line basis for all operational assets other than mobile plant. Mobile plant is depreciated on a diminishing value (DV) basis.

The following rates have been applied:

Buildings:

Plant	2%-50% of valuation
Fixtures	2%-50% of valuation
Proper	1%-6.7% of valuation

Computers and associated equipment
25% of cost price

Chattels 20% of cost price

Library Books 10%-33% of cost price

Mobile Plant:

Light Vehicles	20% DV
Trucks, Trailers, Buses	15% DV
Small Plant	50% DV
Medium Plant	33.3% DV
Heavy Plant	15% DV
Specialist Plant	7.5% DV

(ii) Infrastructural Assets

Expenditure on infrastructural asset replacement and renewal is capitalised. Disclosure is in the capital expenditure summary immediately below the Cost of Service Statement on each of the significant activity pages. (See pages 31 to 54) The expensing of these assets is by way of depreciation. This is calculated using the long run average renewals approach (LRARA). This approach has been used for the following assets:

Roading

Sewer, Stormwater and Water Systems and Associated Plant

Water Meters

Street Lighting

Traffic Signals

Bridges

Bus Shelters

(iii) Restricted Assets - The only restricted assets that are depreciated are:

Trust Housing 1% of valuation

Historic Buildings 1% of valuation

(iv) Assets under Construction

Assets under construction are not depreciated. The total cost of a project is transferred to the relevant asset class on its completion, and then depreciated.

(c) Landfill Aftercare Costs

As operator of the Burwood Landfill, the Council has a legal obligation to provide ongoing maintenance and monitoring services at the landfill after closure. To provide for the estimated cost of aftercare, a charge is made each year based on volumes processed through the landfill.

STATEMENT OF ACCOUNTING POLICIES

The estimated cost is calculated based on estimates of:

(i) **Total current cost**

This is defined as the amount that would be paid if all equipment, facilities and services included in the estimate were acquired during the current period. The estimate has been based on costs of closure of similar landfills by other local authorities.

(ii) **Total capacity**

The estimated length of time needed for post-closure care is 30 years.

The Council also has a legal obligation to provide ongoing maintenance and monitoring services for the closed landfill sites of the former amalgamating authorities. The estimated future costs to perform this obligation have been accrued and charged.

The calculations assume no change in the legislative requirements for closure and post-closure treatment.

(d) **Debt Servicing**

Significant Activities are charged a share of the Council's actual borrowing costs. These costs are apportioned on the book value of the Operational and Infrastructural Assets employed at 1 July 2000.

(e) **Goods and Services Tax (GST)**

GST has been excluded from all budgetary provisions except for rental housing, accounts receivable and accounts payable.

(f) **Cost Allocations**

The costs of all internal services are either charged directly to service delivery activities or allocated to them.

Where the user of the service can be identified the recovery is made by way of direct charge. This applies to services provided by City Solutions. Where this is not possible, the costs are allocated by way of corporate overhead. The basis of the corporate overhead allocation is reviewed each year in order to ensure that the allocation best matches the service being utilised. Internal service costs which are allocated out as corporate overhead include: the Corporate Office, Corporate Services, Management Information Services and Financial Services.

Rate collection costs are included within the corporate overhead and are apportioned on the basis of the rates funding applied to each activity.

Debt servicing costs are allocated out separately using assets held as the allocation base.

(g) **Research and Development Costs**

Research and development costs are expensed in the period incurred. Development costs are deferred where it is probable that future benefits will exceed those costs. Deferred development costs are amortised over future periods in relation to expected future revenue.

(h) **Inventories**

Inventories are valued at the lower of cost and net realisable value. Cost is determined by FIFO or weighted average methods.

(i) **Investments**

Subsidiaries, except for Christchurch City Holdings Ltd (CCHL) associates and shares in the Local Government Insurance Corporation Limited and New Zealand Counties Investment Company Limited are valued by the share of equity as per the latest Statement of Financial Position. Shares in CCHL are valued at independent market valuation.

(j) **Donated Goods and Services**

The Council receives the benefits of many services provided by volunteers. These services are greatly valued. They are however, difficult to measure in monetary terms. From an accounting point of view these services are not considered material in relation to the Council's total expenditure.

Vested land is included at current value and Infrastructural Assets are included at the cost to the subdivider.

(k) **Leases**

(i) **Finance Leases**

These leases effectively transfer all the risks and benefits of ownership to the lessee. Finance Leases are included in liabilities at their current value.

Assets purchased under such leases are included in fixed assets and depreciated at usual rates.

(ii) **Operating Leases**

Under these leases, the lessor effectively retains all the risks and benefits of ownership. These lease payments are charged as expenses in the periods in which they are incurred.

(l) **Employment Entitlements**

Provision is made in respect of the Council's liability for gratuity allowances, and annual and long service leave. The liabilities for leave have been calculated on an actual entitlement basis at current rates of pay. The retiring gratuity liability has been assessed on an actuarial basis.

(m) **Third Party - Transfer Payment Agencies**

The Council collects monies for many organisations including Environment Canterbury, Building Industry Authority and others. Where collections are processed through the Council's books, any monies held are included in the Accounts Payable figure in the Statement of Financial Position.

(n) **Projected Cost of Service 2001/02 and 2002/03**

The projected cost of service for 2001/02 and 2002/03 relates only to operating expenditure. The projections do not include fixed asset purchases or capital expenditure on infrastructural assets. Details of these costs can be found under the Five Year Capital Expenditure Programme (see pages 71 to 89).

(o) **Comparative Figures**

Certain comparative figures have been restated to reflect changes in presentation.

STATEMENT OF ACCOUNTING POLICIES

(p) Income Tax

The income tax expense charged to the Statement of Financial Performance includes the expense and the income tax effects of timing differences. This has been calculated using the liability method.

(q) Financial Instruments

The Christchurch City Council is party to financial instrument arrangements as part of its everyday operations. These financial instruments include Banking Funds, Bank Deposits, Short Term Investments, Accounts Receivable, Sinking Fund Investments, Accounts Payable and Term Debt.

Details of the policy relating to Financial Instruments can be found in the introductory section of Volume I of the Corporate Plan : 2002 Edition.

(r) Investment and Development Property

The Council has no properties purchased or acquired for the primary purpose of earning capital gains or rental income.

(s) Financial Reporting Standard No. 29 (FRS 29) Disclosures

In accordance with the Institute of Chartered Accountants of New Zealand Financial Reporting Standard 29, the following information is provided in respect of the Long Term Financial Strategy:

(i) Cautionary Note

The Long Term Financial Strategy and financial information is prospective. Actual results are likely to vary from the information presented, and the variations may be material.

(ii) Nature of Prospective Information

The financial information has been prepared on the basis of best estimate assumptions as to future events which the Council expects to take place.

The financial information presented consists of both forecasts and projections. The financials for 2001/02 are forecasts which reflect the most probable outcome. The financials for 2002/03 and subsequent years are projections. They are based upon varying assumptions about the conditions that might exist and possible courses of action.

“Sustainable Christchurch” scenes at the Composting Plant and a recycling truck at work

(iii) Assumptions

The principal assumptions underlying the forecasts and projections are noted in the Long Term Financial Strategy Section of the Strategic Statement. These assumptions were valid as at 12 July 2001, the date this Financial Plan was adopted.

(iv) Extent to which Prospective Information Incorporates Actual Results

Although the period covered by the Long Term Financial Strategy contains no actual operating results, some financial information has however been extrapolated from the Council’s audited Financial Statements as at 30 June 2000.

(v) Purpose for which the Prospective Information is prepared

The Long Term Financial Strategy is in accordance with the Local Government Amendment Act (No. 3) 1996. The purpose of this legislation is to promote prudent, effective, and efficient financial management by local authorities.

Changes in Accounting Policies

There are no changes in accounting policies. These have been applied on a basis consistent with those in previous years.

Policy Change Statement

To meet the requirements of Sections S223(1)(a) and (b) and (3)(b) of the Local Government Amendment Act (No. 3) 1996, it is stated that at this time the Council and its related organisations will have similar policies and objectives in 2002/03 and 2003/04. Where relevant, significant changes between the policies, objectives and activities proposed for 2001/02 and those for 2000/01 are described.
