Your Submission:

1. That the free shuttle bus extends as far as Bealey Avenue, which can be walked to by many people in this suburb.
2. The St Albans Resource Centre has been a major positive influence for many in St Albans. I would not like to see a funding cut bringing about its demise, and think at least one properly paid employee should be available to co ordinate the many volunteers (as current.)
3. Height restrictions (or extensions) should be carefully thought through including genuine input from local residents. Progress has to happen but several projects appear to have been (legally) approved on essentially technicalities which should have been better thought through before implementation.
