I do NOT wish to make a personal submission at the hearing, and ask that this written submission be considered.

I wish to talk to the main points in my written submission at the hearings to be held between Tuesday 7 June and Friday 10 June 2005.

- ① We have not found any other Council in New Zealand that expects a contribution of this size towards the cost of undergrounding — to have to pay half of the cost is a very heavy burden on taxpayers & is unaffordable for many people
- ② Ratepayers already pay rates so the Council can provide its core services.
- ③ The Council says that it is necessary to remove the existing trees and leave the power poles which will result in a very unattractive avenue especially as we have many different designs of power poles leaning at different angles
- ④ What does the Council do with income from Orion?

Please continue your submission on the back of this page. You may add more pages if you wish.
Submissions close on Friday 13 May 2005

P.T.O.

submission form

Most Councils use income from electricity companies to pay for undergrounding.

- ⑤ Our present wiring is between 50-70 years old so the street will have to be dug up again at a later date, to renew this wiring. This seems uneconomic and lacking common sense.
