19 April 2008

Your Submission:

Page 66: Waste minimization targeted rate  
A uniform rate means in effect a higher rate increase for those in properties of low capital value. Using same system as for other services, the rate needs to be approx. .0184% of CV, giving a range of \$9 to \$276 for properties between CVs of \$50000 and \$1.5 million. Even then the \$9 would usually be harder for the ratepayer to find than the \$276 in the case of the millionaire above.
