Your Submission:	<p>Draft 2008 Amendments to the Long-Term Council Community Plan (LTCCP) 2006-16</p> <p>150 Marine Pde New Brighton Christchurch 8083 email bsandle@snap.net.nz ph 3889174</p> <p>1 May 2008</p> <p>I ask that budgets be started or increased for implementing requirements of Coastal Policy Statement (becoming mandatory)</p> <p>Biodiversity strategy</p> <p>Social co-operation, whether sharing of refuse-recycling facilities, car sharing, or living in close quarters in 'affordable' accommodation.</p> <p>I ask for consideration to be given to failure of our current financial economic system, as indicated by the failure of many finance companies, and a move to recognise and work with perhaps more real forms of capital for the future such as ecosystems, or social capital.</p> <p>I ask for pandemic and earthquake preparedness to be considered when doing urban planning, balancing out any extra cost of say the Advantec decentralised sewerage system such as used in Anchorage, Alaska, against costs of disruption of a centralised system, and to include considerations of reduced water availability for flushing gravity pipes of the current system.</p> <p>Brian Robert Sandle</p>
