Re Kerbside Domestic Waste Service
Media release 5 March 2008

I have read the information from the Council to both the media release and the notice included in the March 26 Christchurch Mail, and believe that I have a grasp of the Council's proposals. The alternative weekly collection should work well.

I have composted green materials together with meat scraps for a number of years including the last six years at the above address, and have two bins and a Rover Muncher to process the material. Material too large for composting in this way is taken to the Council's Styx depot. My vegetable garden absorbs the compost totally.

I therefore have no use for an 80L bin & believe that the Council cannot force me to have one. It is difficult enough to deal with the current green bins plus black bag and can see problems having to pull two bins simultaneously along a right of way 110 metres long. On the basis of the targeted rate of \$82, the 80L bin out of a total of three bins totalling \$602, will yield \$14.26 & I believe it is fair to adjust the targeted rate accordingly. I trust that the Council will be able to modify the proposals to suit circumstances.

Yours faithfully
Graham C. S. White.

P.S. I have worked for local authorities for about 40 years and have learned in that time that on occasions, the impossible becomes possible!
