An extension to the Tram route is a really excellent idea.

It will allow Tourists to see more of our beautiful central city, and it will also give them access to the businesses in that area. If they see something while they are riding the Tram, they will return and buy it.

And it would be lovely to see the Tram in front of the Cathedral again.

Pedestrians merge perfectly with the Tram's current circuit, as do cars. So there should be no problem with the new area working just as well.
