

Chairperson Hagley/Ferrymead Community Board

The purpose of this Community Plan is to let the community know what the Council and Community Board intend to do in the Hagley and Ferrymead Wards in the 1999/2000 year and in the following years.

Each year the Council issues an Annual Plan covering the whole city. This Community Plan contains extracts from Volume 2 of the Council's Annual Plan which refer to local projects and expenditure, and some metropolitan projects and expenditure of particular significance to the Hagley/Ferrymead community. It also contains additional information relevant to the community which is not contained in the Annual Plan.

The Council hopes that this will assist community participation in the planning of future Council activities and expenditure by all users of Council facilities and services.

The Community Board objectives for the year have been formulated following extensive consultation with community groups and a range of stakeholders in the two wards. The Board's objectives and its allocation of funds to specific projects which meet these objectives are detailed on pages **45-46, and 50-51**. In addition to the project funds already allocated, the Board has \$50,000 in discretionary funds for allocation throughout the year.

The Community Plan is accompanied by two further volumes, 1 and 2, of the Council's Annual Plan. These deal with the wider metropolitan issues and include the Council's budget for the whole city.

As Chairman of the Hagley/Ferrymead Community Board I welcome your participation in planning for the future of your community, as do all members of this Board.

The Board has an important role in representing the views of residents of the Hagley and Ferrymead wards. It has a wide range of delegated powers in relation to local matters and in an advisory or advocacy role in relation to metropolitan matters that affect us locally.

Bob Todd
Chairman
Hagley/Ferrymead Community Board
