

Investigate removal of formed roadway, replacement with a walkway/cycleway and extending the cemetery open space to the river bank. Continue to provide a shared pedestrian/cycle pathway whether the road is closed or left open.

Barbadoes Street Cemetery is a heritage place for which a conservation plan is to be prepared

Redistribute the road space to shorten pedestrian crossing distances and create grass berms with avenue trees linking Cambridge Green with the Bricks

Complete the construction of Cambridge Green

Prepare and implement a plan for enhancing the ecological value of the riffle area

Two way local access road

Investigate methods of management of silt deposition in this reach of the riverbed

Plant a large feature tree e.g. *Ulmus lutea*, and three other specimen trees with contrasting autumn foliage e.g. limes, beech, flowering cherries, or a stand of beech, rimu/totara

Provide a new footbridge to link Bangor Street and Churchill Street

Heritage pumping station. Plant kowhai, plagianthus, rimu

Plant swamp cypress with cedars, group of flowering cherries

Add screening or bank protection of low shrubs or ferns

Investigate alternative improvements to the existing walkway between the road and the river

Investigate methods of management of silt deposition in these reaches of the riverbed

Supplement existing arboretum with liquidambers, and plant weeping willows near the historic site of the earlier rowing clubhouse
