

8. WORDSWORTH STREET –PARKING RESTRICTION

Officer responsible City Streets Manager	Author Lorraine Wilmshurst, DDI 371-1662
Corporate Plan Output: Signs and Markings	

The purpose of this report is to ask the Board to approve the installation of a parking restriction in Wordsworth Street.

Council are in the process of renewing the kerb and channel in Orbell Street. As part of the consultation process a request was received from the Café on the corner of Wordsworth and Orbell Street for a parking restriction.

This section of Wordsworth Street is all day parking and customers to the Café have no parking available. With the entrances into the building on this corner and the proposed kerb build out, a parking restriction would remove three all day parking spaces.

The proposal is to place a ten minute parking restriction along the length of the property. It will provide short term parking for the Café and other tenants of the building.

Consultation has been carried out with the property owner.

Recommendation: That the parking of vehicles be restricted to ten minutes on the south side of Wordsworth Street commencing at a point 11.5 metres from its intersection with Orbell Street and extend in an easterly direction for a distance 25.5 metres.
