6. ARANUI COMMUNITY RENEWAL

Officer responsible Community Advocate, Project Manager	Author Ian McKenzie - Project Manager Team Leader, DDI 371-1286
Corporate Plan Output: Various	

The purpose of this report is to provide an update to the Community Board on activities in Aranui.

CONTEXT (PROCESS AND FINANCIAL) OF REPORT

Funding has been allocated to the Aranui Community and to "Aranui Community Renewal" by the Community Board on a yearly basis and by the Council for a three year period.

The Community Board funds approximately 15 community groups or activities and the Community Coordinator position.

Council funding (allocated through the 2001/02 annual plan round) provides for coordination of capital works delivery, assistance with capacity building in the community and to "projects" as they arise.

The partnership (City Council, Housing New Zealand and the Aranui community) reports to a Steering Group comprising two Councillors, Chairperson of the Burwood/Pegasus Community Board, representatives of the Community Committee and the Chief Executive Officer of Housing New Zealand.

As well as reporting to that Steering Group, progress will be reported to the Community Board and to the Community Plans Special Committee. This report is the commencement of regular reports to the Community Board.

BACKGROUND

The aim of Aranui Community Renewal is to "enhance Aranui as a good place to live".

The project aims to improve:

- The physical environment in the area, including parks, streets and other amenities.
- Social opportunities and the social environment, including enhancing community pride and capacity, strengthening connections between individuals, business and community groups, and encouraging better services to the area.
- Economic opportunities, including providing employment and work experience.
- The quality and mix of (Housing New Zealand) rental housing and the delivery of housing management.

The project has developed from a partnership between Housing New Zealand and Christchurch City Council (promoted and supported by the Community Services Committee Housing Working Party) formalised in late 2000, and is now a three way partnership including the Aranui community.

Housing New Zealand have partnered with the Council and see the advantages in partnering with other agencies to ensure the investment they are proposing to make in housing is appropriately related to other initiatives to improve overall community wellbeing, including health, education, employment and crime prevention. There is a desire to demonstrate a successful community renewal approach that can be applied elsewhere in Christchurch and New Zealand.

The project therefore involves co-ordination and collaboration across central government agencies, the Council, residents, community organisations and private sector agencies. The key role that Council can play is as a catalyst in ensuring effective co-ordination and collaboration occurs:

- 1. In the process of engaging with and building capacity in the community.
- 2. In integrating the delivery of social services by responsible government agencies and local organisations to address underlying problems.
- 3. In integrating delivery of planned Council and Housing New Zealand capital works in close cooperation with the community.
- 4. In completing through 2002 a detailed community renewal strategy which establishes priorities for action and appropriate requests for future Council resource commitment.

ACCOMPLISHMENTS IN THE LAST YEAR

Community Hui, 150 plus attendees. The Aranui Community Renewal Committee formed as the community forum representing Aranui people in the partnership. Community Consultation Co-ordinator (George Watson) appointed to temporary contract. George moves into the Marlow Road "Aranui Community and Housing Information Centre". Housing New Zealand Portsmouth Street housing completed.	October 2002

CONCLUSION

While staffing changes have had some impact on the project, the Council's financial commitment to the community and the achievement list above demonstrate a significant commitment to the Renewal.

Michael McNabb, Community Development Adviser and Rachael Fonotia, Community Consultation Coordinator will be in attendance to expand on the community relationships developed in the Renewal.

Recommendation: That the information be received.

Chairperson's

Recommendation: For discussion.
