

9. KERB AND CHANNEL RENEWAL: EDWARD AVENUE (BARBADOES STREET TO HILLS ROAD & CLEVELAND STREET (EDWARD AVENUE TO HENDON STREET) 2003/2004 FINANCIAL YEAR

Officer responsible City Streets Manager	Author Lee Kelly (Roading Projects Consultation Leader), DDI 941-8355
--	---

The purpose of this report is to inform the Shirley/Papanui Community Board of the proposal to renew the old dish guttering in Edward Avenue and Cleveland Street and to inform the Board of the proposed consultation plan for these streets.

The Consultation Plan to date has involved informal on-site meetings with residents to ascertain any concerns that they may have in relation to traffic in these streets with the view to incorporating a new traffic management plan along with the kerb and channel work.

Staff would now like to produce concept plans of Edward Avenue and Cleveland Street with the view to submitting these plans with a report to the February 2003 Seminar meeting of the Board.

Approval will be sought from the Board at this meeting to allow the plans to be publicised to the residents of Edward Avenue and Cleveland Street, by way of a public meeting, to ensure that they have an opportunity to comment and to participate in the process so that the outcome is acceptable to them.

Staff

Recommendation: That the information be received.

Chairperson's

Recommendation: That the staff recommendation be adopted.
