

6. GLOUCESTER STREET P5 LOADING ZONE

Officer responsible City Streets Manager	Author Basil Pettigrew, DDI 941-8542
--	--

The purpose of this report is to inform the Board of a request seeking approval to create two P5 loading zones on the southern side of Gloucester Street east of Manchester Street. This request is being submitted to the Sustainable Transport and Utilities Committee's 5 November meeting. (See attached plan.)

"Cue Time Ltd" and "The Clinic" have submitted the request for the loading zones to enable deliveries and pick ups. These loading zones will overcome problems with vehicles double parking and blocking the traffic lanes in both Gloucester Street and Manchester Street.

As "The Clinic" provides health services (including doctors, pharmacy and physiotherapy), it has been stated that ambulance parking is also sometimes required.

The most convenient location for the loading zones is in the space east of Manchester Street currently designated as metered parking. Vehicle parking in this area is currently well supplied, and the removal of two metered parks to provide loading zones is supported by the Parking Operations Manager.
