

17. THE CHRISTCHURCH CITY COUNCIL FINANCIAL PLAN AND PROGRAMME: 2004 EDITION

The purpose of this report is to seek elected member input into the 2003/04 planning process and to outline the 2004 Financial Plan and Programme timetable.

For a number of years now Committees have combined the end of year reporting with the forthcoming planning process. This approach works well as it ensures that matters arising from the review of past performance are fed directly through to the forthcoming Plan. For example, if the Committee is concerned about the adequacy of some performance measures for 2001/02 then it is important that amendments are made to the 2004 Plan. Similarly if the Committee feels that past performance has indicated that some objectives are not relevant, it can request that this matter be reviewed as part of the planning process.

It is intended that these and similar type issues be incorporated into a Planning Statement which can be used by Units when they prepare their draft budgets for the 2004 Plan.

It may be that nothing of any substance arises from the monitoring process. In these circumstances there is therefore no need to prepare a Planning Statement.

Like last year's planning process, the Committee is also asked to consider key issues from Community Board Planning Statements.

The key issues are detailed in a separate report from Stephen Phillips, the Community Relations Manager, and they should be considered in conjunction with the monitoring reports.

The purpose of including key issues at this stage in the process is to ensure:

- That the Standing Committee is aware of community issues; and
- That if need be the Standing Committee can respond or add its weight by making a similar entry in its Planning Statement.

The more detailed issues such as project substitutions and new projects for year five will be left until February 2003. In February Standing Committees will have before them the draft operating and capital budgets and they will be in a better position to make these decisions.

TIMETABLE

The timetable sequence is much the same as the previous year's.

The proposed timetable is as follows:
