

11. WOODBRIDGE ROAD: PROPOSED KERB AND CHANNEL RENEWAL

Officer responsible City Streets Manager	Author Brian Boddy, Project Consultation Leader, DDI 941-8013.
--	--

The purpose of this report is to request that the Board recommend to the Strategy and Resources Committee that the replacement of the dish channels in Woodbridge Road with flat channel be brought forward from 2006/07 to 2004/05 financial year and approve the work for construction. To bring Woodbridge Street forward to 2004/05, it is proposed to move Barrie Street from 2004/05 to 2005/06, and Boon Street from 2005/06 to 2006/07.

The residents of Woodbridge Road, together with residents from Thorrington and Wherstead Roads have been contacted by publicity pamphlet and public meeting to obtain feedback for the renewal of the dish channel projects in their streets (see earlier report). Feedback from the residents of Woodbridge Road was that kerb and channel be renewed at the same time as the work to be undertaken in Thorrington and Wherstead Roads. Staff have identified that cost benefits and a reduction in the length of time the community is disturbed by construction works are possible.

An amount of \$214,800 is budgeted for this project, which does not include the undergrounding of the overhead services in the street.

The residents and property owners of Woodbridge Road have been consulted and are in agreement with the attached concept plan TP149901.

Staff

- Recommendation:**
1. That the Board approve the attached concept plan for construction and recommends to the Strategy and Resources Committee that the kerb and channel renewal in Woodbridge Road be brought forward from the 2006/07 financial year to the 2004/05 financial year.
 2. That the proposed work in Barrie Street be moved from 2004/05 to 2005/06, and the proposed work in Boon Street be moved from 2005/06 to 2006/07.

Chairperson's

Recommendation: For discussion.
