

18. CONTRACT NO 2003/04-10 FOOTPATH RESURFACING VARIOUS CITY STREETS

| | |
|----------------------------------------------------|-------------------------------------------------------------------|
| Officer responsible City Streets Manager | Author Richard Falloon, Pavement Engineer, DDI 941-8583 |
|----------------------------------------------------|-------------------------------------------------------------------|

The purpose of this report is to seek Committee approval for the acceptance of the above tender which is above the \$500,000 authority delegated to Council Officers.

The contract is for the repairs and resurfacing of footpaths in various city streets over a two-year period.

The tender received was evaluated using Transfund's competitive pricing procedures (CPP) weighted attribute method. Transfund subsidy is not applicable to this project. Under this method a two envelope system was used (non-priced attributes in one and price in a second). The non-price attributes were evaluated. The price envelope was then opened. The tender with the highest weighted attribute score is the successful tender.

Only one tender was received for this contract with evaluation as follows:

| <u>Tender</u> | <u>Score</u> | <u>Tender Price</u> |
|-------------------------|--------------|---------------------|
| Pidgeon Contracting Ltd | 55 | \$752,823.60 |

The recommended tenderer is Pidgeon Contracting Ltd. The tender price is \$752,823.60 excluding GST. The estimate for this work was \$760,000.00. While there is only one tender the tendered rates are very similar to the rates provided in Contract 2003/04-9.

The contract is for two years. The work will be funded from the footpath resurfacing budgets for 2003/04 and 2004/05.

Staff

Recommendation: That the tender of Pidgeon Contracting Ltd be accepted.

Chairman's

Recommendation: That the above recommendation be adopted.
