

6. GREERS ROAD - PROPOSED KERB AND CHANNEL RENEWAL

Officer responsible City Streets Manager	Author Brian Boddy, Project Consultation Leader, DDI 941-8013.
--	--

The purpose of this report is to request that the Papanui/Shirley and Fendalton/Waimairi Community Boards approve for distribution the appended concept plan for the renewal of the dish channels on the east side of Greers Road from Harewood Road to Langdons Road.

BACKGROUND

This section of Greers Road, a boundary and arterial road between the Papanui and Fendalton Wards carrying 16,500 vehicles per day, is on the Capital Works Program for the 2003/2004 financial year. There is a need to install pedestrian crossing facilities in this section of Greers Road. Because of this no stopping restrictions have been proposed on both sides of the Langdons Road and Reynolds Avenue intersections. No stopping restrictions have also been installed on both sides of other intersections to provide adequate sight lines for drivers entering Greers Road from the side streets. Following consideration of the above pedestrian and driver needs, traffic flow patterns, safety, cycle needs, together with possible aesthetic improvements the appended plan has been drawn up.

The amount of \$159,035 has been budgeted for this project.

It is proposed that the concept plan be distributed to obtain the residents' and property owners' feedback.

Staff

Recommendation: That the Community Board approves the attached publicity plan for distribution.

Chairperson's

- Recommendation:**
1. That the staff recommendation be adopted.
 2. That one on one consultation take place with affected residents.
