

8. STREET TREES – SHANNON PLACE

Officer responsible Community Advocate	Author Nick Chapman, DDI 941-5407
--------------------------------------------------	---------------------------------------------

The purpose of this report is to advise the Board of the delay in implementing its resolution regarding the removal and replacement of street trees in Shannon Place.

At its meeting on 3 April 2002 the Board received a report seeking approval for a tree replacement planting programme in Shannon Place, Tahi Place and Castille Place. The report (see copy attached) followed a request from Mrs Day, resident of Shannon Place, that trees causing a litter problem and damage to the footpath be removed. The Board resolved to approve the request for tree removal and replacement but to date, this has not taken place.

The Chairperson has requested Parks and Waterways to report back to the Board on this matter.

Staff

Recommendation: That the Community Advocate refer the matter to the Manager, Parks and Waterways Unit.

Chairperson's

Recommendation: Not seen by Chairperson.
