--	---

As a requirement of the Council's Management Guidelines for Community Facilities, the following information is provided for members consideration.

The full report as previously circulated is **attached**.

The Community Relations Unit had planned to complete a review of the Community Facilities Operational Guidelines earlier in the year. This document impacted on proposed changes to the annual reporting format. Because the Guidelines Review is not now due until later in the year the previous format was used to carry out the 2002 review.

The 2002 review does not illustrate the new changes at Fendalton Community Centre. The facility is proving very popular for community activities. As with the changes at Avice Hill, they will not be highlighted until the next review covering 2003.
