Hagley/Ferrymead Community Board  
180 Smith Street  
Linwood  
CHRISTCHURCH

Dear Hagley/Ferrymead Community Board

**Urgent Request for Environment Court Case Funding**

I am writing to you on behalf of ICON (Inner City West Neighbourhood Group) to seek funding to allow us to produce evidence in our Environment Court case relating to references on Living 4 Zones.

ICON's references are specifically around better protections to enhance the special amenity areas within the central city and improved design guidelines for redevelopment.

As part of ICON's evidence, we are looking at getting a presentation by Lucas Associates to highlight the existing heritage buildings within the ICON area that are worthy of protection. For this, we would like to ask the Hagley/Ferrymead Community Board for funding of \$495. Please find the quote attached.

We originally sought an adjournment until late October for the Environment Court case, but this was not accepted and there is another pre-conference scheduled for the 12 September 2003 in which ICON must state its witnesses. This is the reason for this request at such short notice.

ICON would welcome your support in allowing us to produce the above-mentioned presentation as part of our evidence. We see this as a way in which the Board can help contribute to maintaining the unique character and heritage aspects of our area. I look forward to your response.

Yours sincerely

*B Bellis*

**Re. working towards a Variation for heritage management**

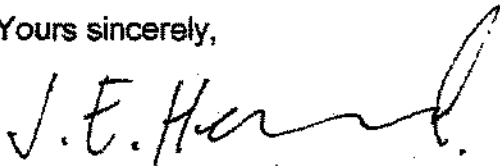

Dear Bruce,

We are happy to be of assistance with providing presentation style mapping highlighting the buildings worthy of some type of City Plan heritage protection within the ICON area.

Once we receive the base survey data from David Thomley and Terese Moynihan, I envisage it should take no longer than 1 day to prepare. Based on our hourly rate, this would come to \$440.00 + GST. Disbursements such as acquiring the base aerial photos from the City Council and costs of photocopying etc. would be charged on at cost.

We look forward to your reply.

Yours sincerely,

Jeremy Head  
Registered ANZILA Landscape Architect
