

1.1.0

*INTRODUCTORY
INFORMATION*

Vision for Christchurch

Christchurch is a place for people at one with each other and the environment, becoming one of the world's leading sustainable cities, socially, environmentally and economically. We recognise the need to preserve our natural ecosystems or ENVIRONMENT, on which all life depends, including PEOPLE. People in turn see the ECONOMY, SERVICES, and ART, HERITAGE & SPORT as important aspects of community life.

A vision for Christchurch as we want it to be

1. Christchurch people enjoy belonging to their local community, to their city and to Canterbury.
2. All people - of whatever background - feel welcome here.
3. The unique position of the tangata whenua is acknowledged and respected.
4. Children are nurtured, young people are encouraged and the elderly are respected.
5. Neighbours help each other and join together to achieve shared aims.
6. People are free from the threat of crime or injury.
7. Unique characteristics - including heritage buildings and natural features - are preserved.
8. Everyone has access to good housing, health care and education and to sufficient resources for their well-being.
9. Everyone has opportunities for fun, sport, recreation, art and culture.
10. Convenient and efficient transport is available for individuals and for business.
11. Christchurch has a thriving economy and full employment.
12. The beauties of our garden city - its trees, flowers and open spaces - are enhanced.
13. The quality of air, water and soils, of hills, plains, streams and open spaces is improved.

Vision for Christchurch (continued)**Indicators**

- Satisfaction with Christchurch as a place to live, work and spend time (Residents Survey).
- Participation by people of all cultures in Council decision making bodies and processes.
- Consultation with tangata whenua in Council decision making processes.
- Participation in community based activity (Residents Survey).
- Crime rates (NZ Police).
- Casualty rates (Road Survey Report).
- Heritage buildings, places and objects listed in City Plan.
- Number of sites in city that have natural value.
- Multiple Hardship Index.
- Household expenditure on housing, health care, and education.
- Sport and spare-time activities (Residents Survey).
- Satisfaction with transport networks (City Streets Survey).
- Labour force participation rates.
- Regional Economic Activity (National Bank Survey).
- Satisfaction with building, alterations, extensions or developments (Residents Survey).
- Total hectares of parks per head of population (Parks Database).
- Number of high smog days (Environment Canterbury).
- Quality of water from aquifers and in rivers, streams and coastlines.

MISSION STATEMENT OF THE CHRISTCHURCH CITY COUNCIL

Providing leadership to achieve the vision for Christchurch through effective local governance and the delivery of high quality services.

In achieving the mission the Council will:

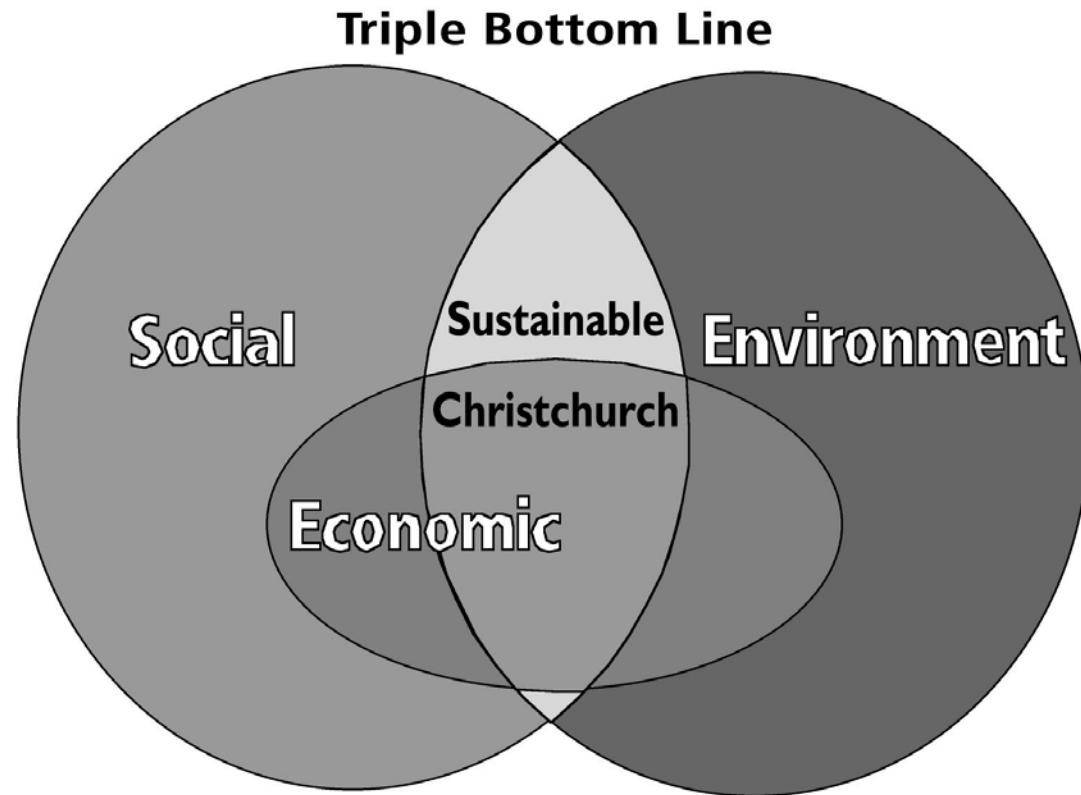

- be responsive to local needs;
- give strong expression to local identity;
- be democratic, effective and efficient;
- be highly accountable for its actions;
- advocate in the interests of the whole community;
- add value to the city's economy;
- enhance the quality of the city's environment;
- use sustainable management principles;
- be efficient in its delivery of high quality services;
- work constructively towards common goals held with central government and the regional unit of local government;
- be both a good corporate citizen and a good employer.

TE PŪRONGO TIKANGA Ā TE KAUNIHERA O ŌTAUTAHĪ

Mā te hāngai tonu o ngā ture ā-rohe me te tuku i te ratonga hiranga e whakakaha ake i te toiora o ngā tāngata katoa me te taone nui o Ōtautahi.

Te tutukitanga pai o ngā tikanga o te Kaunihera ka:

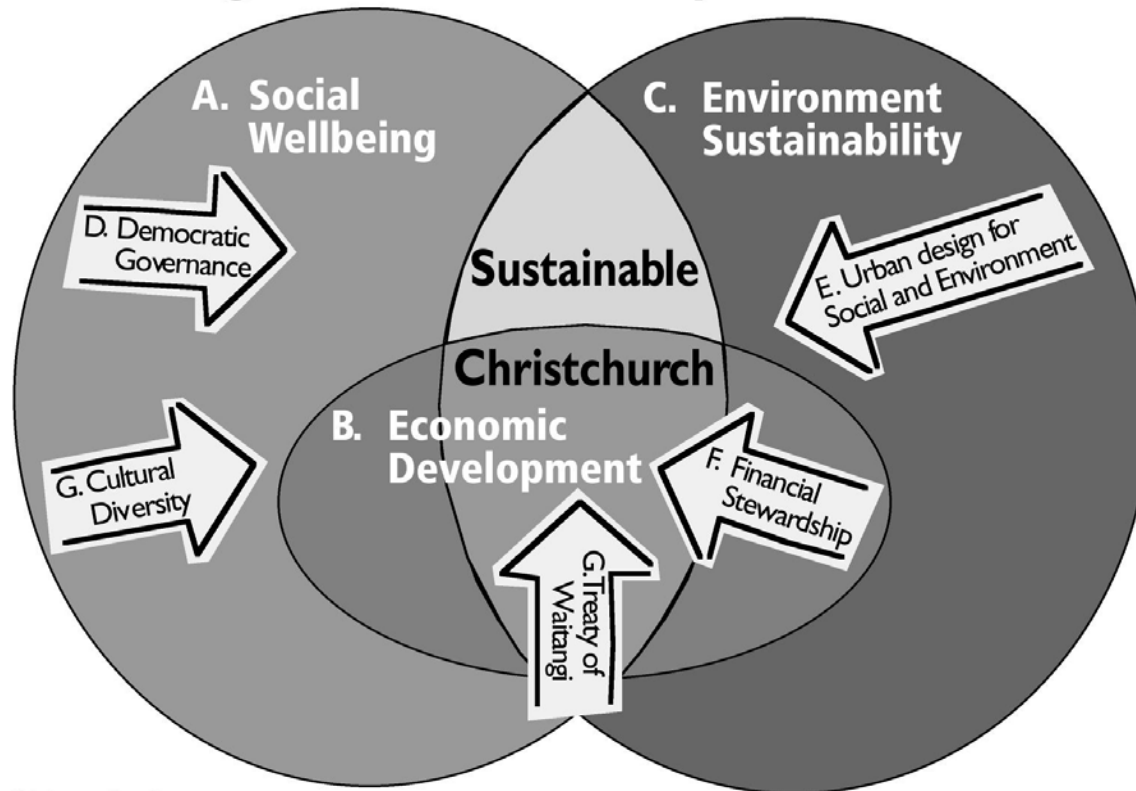

- tahuri mai ki ngā hiahia o te iwi kāinga
- tautoko kaha i te tuakiri o te iwi kāinga
- whakahaere ngātahi ai te manapori, te whakatutuki, te whakahaere i ngā kaupapa
- whakatau tika i āna mahi katoa
- kaiwawao i ngā kaupapa hei painga mo te iwi kāinga
- whai hua ake ki te ao ohanga o te taone nui
- whakakaha ake i te pai o te taiao o te taone nui
- whakahaere i ngā kaupapa mahi hāpai kia pūmau ai
- whakahaere tika ai i āna ratonga katoa
- mahi ngātahi ai ki te whakatutuki i ngā whāinga e whāia nei e te Kāwanatanga me te Wāhanga ā rohe o te Kaunihera ā rohe
- tū hei rangatira tōpū, hei kaituku mahi

The Triple Bottom Line

When making decisions and planning the Christchurch City Council will take into consideration the social impact, the environmental impact and the economic benefits. This process is referred to in planning as the triple bottom line and will assist us in creating a sustainable city for the future. The aim is to have as many activities as practical providing social, environmental and economic benefits all at the same time. The council will be publishing its 2003 annual report on a triple bottom line basis rather than just presenting the financial bottom line. This means that the next Financial Plan and Programme, for 2002/03, will highlight the social, environmental and economic impacts and benefits of all Council activities.

Strategic Goals in the Triple Bottom Line

This is an action diagram.

The three circles, A. SOCIAL, B. ECONOMIC and C. ENVIRONMENTAL are like telescope sights showing three areas on which to focus. To make our city more sustainable is important. The closer the circles, the closer we are to our vision of a Sustainable Christchurch.

The arrows show actions the Council is taking to move the circles closer.

D. DEMOCRATIC GOVERNANCE, E. URBAN DESIGN (eg essential infrastructure) FOR SOCIAL AND ENVIRONMENTAL benefits, F. FINANCIAL STEWARDSHIP, G. TREATY OF WAITANGI and CULTURAL DIVERSITY actions.

REPORTING PRINCIPLES

TBL reporting is a relatively new phenomenon and there is no established best way of doing it – we will learn more from every report published. Achieving a balance between detail and making the report interesting and readable is difficult. The aspirations behind our TBL measures can be summarised in the following principles:

- **Balanced** – we are prepared to report both positive and negative results on aspects of our performance.
- **A living report** – we are committed to a living report - it will develop and evolve over time.
- **Use of externally derived measures and benchmarks** – we have where appropriate used these and are prepared to be judged by our performance against these measures.
- **Holistic** – we endeavour to show the full picture of the relevant issues.
- **Accessible** – both web and print versions of this document will be available.
- **Interactive** – the reader can engage the CCC via different channels such as:
 - contacting us by telephone (941-8999) or email - info@ccc.govt.nz
- **Synergistic** – TBL reporting is a mechanism by which we can convey the organisation's values/principles and its performance in matching them.
- **Verifiable** – an independent third party will as part of the annual audit process verify that actual performance is supported by appropriate evidence.

STRATEGIC GOALS

The following goals have been identified as being vital to the community and the Council:

Outcomes

A. Community Cohesion and Well-being

Provide or facilitate the delivery of services and opportunities in order to enhance the safety, health and well-being of Christchurch people.

B. Economic Development

Foster opportunities for sustainable economic development in order to generate employment and income and enhance the quality of life of all residents.

C. Environmental Sustainability

Conserve and where practicable restore the natural environment and develop the built environment to enhance the distinct character of Christchurch and maximise the quality of life for current and future generations.

Processes

which we will or have put in place to help deliver the outcomes.

D. Democratic Governance

Provide high quality consultative leadership and advocacy to ensure that Christchurch residents achieve their desired outcomes.

E. Essential Infrastructure

Maintain and improve the physical and service infrastructure of the city in order to generate wealth, promote health and safety, reduce hazards and facilitate social opportunities.

F. Financial Stewardship

Maintain an asset and investment base and ensure that appropriate levels of income match commitments to expenditure in order to support long term goals.

G. Treaty of Waitangi and Cultural Diversity

Respect the unique position of tangata whenua and value the contribution of all peoples in Christchurch.

STRATEGIC OBJECTIVES FOR EACH OF THESE GOALS FOLLOW.

A COMMUNITY COHESION AND WELL-BEING

The City Council will enhance community cohesion and well-being through:

- A1 Maximising opportunities for residents to participate in learning and leisure activities by
 - providing access to books and other information through the city's public libraries
 - supporting and providing visual and performing arts
 - facilitating education and learning opportunities especially pre-schools and pre-employment activities
 - advocating for quality provision of education and training at all levels.
- A2 Strengthening communities by
 - funding and supporting community initiatives, festivals and community organisations
 - initiating and supporting community development projects
 - facilitating collaboration between public, private and community agencies
 - advocating for an equitable share of national resources
 - advocating for provision of social and income support that is adequate to meet residents needs and allow them to participate in the life of the community
 - working with community groups, government agencies and other funding bodies to address key areas of social need.
- A3 Contributing to safe and healthy lifestyles by
 - promoting and protecting health standards
 - providing parks, festivals and recreation and leisure services
 - supporting self help initiatives
 - advocating for quality health and disability services
 - supporting crime reduction and public safety initiatives
 - providing affordable housing for those on low incomes.
- A4 Celebrating, protecting and increasing understanding of cultural diversity by
 - supporting a range of arts, festivals and events
 - facilitating the cultural expression of ethnic and cultural groups
 - recognising the unique role of tangata whenua.
- A5 Ensuring that the needs and aspirations of children, youth, elderly and people with disabilities are taken into account in all Council activities.

B ECONOMIC DEVELOPMENT

The City Council, recognising that economic growth is not an end in itself but a means to achieve social goals, will:

- B1 Foster broad-based sustainable economic development that generates real employment, income and social opportunities for all residents
- B2 Create an environment that encourages enterprise, innovation and development of new ideas and technologies and minimises barriers to economic development
- B3 Create an environment in which businesses flourish
- B4 Support the contribution the public, private and voluntary sectors make to the local economy and promote co-operation within and between these sectors.

C ENVIRONMENTAL SUSTAINABILITY

The City Council will contribute to Christchurch's environmental sustainability through:

- C1 Managing our impact on the environment in order to
 - enhance air quality in the city
 - protect artesian water resources
 - maintain water quality in streams and rivers
 - maintain production potential of fertile soils
 - minimise erosion.
- C2 Ensuring that the development and redevelopment of the built environment
 - enhances the unique qualities of the city particularly the physical characteristics such as the parks, gardens, riverbank and buildings
 - provides for accessible working and leisure activities and facilities
 - offers a range of desirable residential choices
 - stimulates economic activity
 - increases the central city's role as the heart of the city
 - enhances health and safety.
- C3 Protecting significant natural features of the physical environment (such as the Port Hills and the estuary), open spaces and landscape elements, native habitat and ecosystems, significant buildings and sites and other taonga.
- C4 Promoting efficient use of physical resources, an increase in recycling and material recovery, and a reduction of waste.
- C5 Minimising the risks from earthquake, flood, fire and other natural hazards.

D DEMOCRATIC GOVERNANCE

The City Council will facilitate democratic governance for the residents of Christchurch by:

- D1 Creating and maintaining mechanisms for citizens' participation in decision-making and policy development.
- D2 Protecting the rights of all citizens.
- D3 Developing cross-sector networks at local, regional, national and international level which will deliver positive outcomes for the people of Christchurch.
- D4 Providing leadership and advocacy in partnership with public, private and voluntary agencies which ensure the city's interests are reflected in regional and national decisions.
- D5 Developing a fair, cost-effective regulatory framework which protects health and safety, maintains environmental standards, and promotes business and social opportunities.

E ESSENTIAL INFRASTRUCTURE

The Council will improve and sustain essential infrastructure services which will:

- E1 Ensure high quality utilities (water supply, sewerage, and waste and stormwater management) meet the reasonable service demands of residents at efficient prices.
- E2 Develop a network of roads, cycleways, footways and passenger transport to provide both for personal mobility and the needs of commerce and industry.
- E3 Design projects to enhance environmental and social sustainability and otherwise avoid or mitigate, where possible, adverse effects of both natural and technological hazards on people, property and the environment.
- E4 Where possible recognise and report on social, environmental and economic impacts and benefits.

F FINANCIAL STEWARDSHIP

The Council will practise good financial stewardship by:

- F1 Applying financial policies which maintain or enhance the value of the Council's asset base.
- F2 Ensuring that financial assets, liabilities and cash flows are sustainable in the long term.
- F3 Operating under accounting procedures which
 - are consistent with generally accepted accounting practice
 - comply in all respects with external financial reporting requirements
 - enable the true costs of goods and services produced to be determined.
- F4 Maintaining a controlling interest in those trading activities where it is critical that they are managed in a way that has regard, not only to commercial requirements, but also to wider social and economic objectives.
- F5 Operating a funding and charging system which ensures that Council services are accessible to all residents.
- F6 Assess whether programmes and activities are achieving the desired outcomes in the most effective, efficient and financially prudent manner.
- F7 Continuing to improve efficiency in the delivery of Council activities and programmes and measuring the value created through efficiency gains.

G TREATY OF WAITANGI AND CULTURAL DIVERSITY

The Council will recognise the Treaty of Waitangi and value cultural diversity through

- G1 Protecting the rights of tangata whenua under the Treaty of Waitangi.
- G2 Maintaining mutually acceptable consultation procedures with the tangata whenua.
- G3 Considering and protecting the aspirations of all people in all the planning and delivery of all Council activity.

GUIDE TO THE CORPORATE PLAN : 2003 EDITION

The Corporate Plan is large and complex and to make it more user friendly, the following format has been developed. The main features of this format are:

- **Introductory Section**

Consists of the budget tables (budget summaries) together with other background information like the Statement of Financial Management Policies, Summary of the Funding Policy, Borrowing Management Policy, the Investment Policy, Statement of Accounting Policies and the Equal Employment Policy.

- **Unit Budgets**

The remainder of the Corporate Plan is made up of the budgets and plans for each of the Council's Business Units.

The Unit's budgets and plans can be divided into the following sections:

- **Key Changes (Summary Pages)**

The Key Change pages are the summary pages which appear at the beginning of the Unit's budget.

- **Key Changes**

Key changes for 2002/03 are identified with respect to:

- resources - staffing and fixed assets
- charges - fees and user charges
- operational outputs - programme expenditure including major projects
- capital outputs - expenditure on capital projects

- **Committed Costs (Operational)**

These are costs which the Council is committed to. They may relate to the operating costs on a new Council facility built in the previous year or compliance costs which have been imposed on Council by Central Government. They may also represent a commitment which the Council has made subsequent to the adoption of the previous Corporate Plan and prior to the adoption of this Plan.

- **Items Committed by Council during the year (Operational)**

This represents those items which have been approved by the Council since the 2002 Financial Plan was adopted on 12 July 2001.

- **Costs Due to Growth**

Costs which are directly attributable to the growth in the cities population and the consequential increase in demand for Council services.

- **New Operating Initiatives**

These are new items which were not allowed for in the long term financial model. They reflect changing priorities and are a Council response to meet changed conditions.

- **Efficiency Gains**

This schedule highlights all the efficiency gains and cost savings which have been reflected In Unit budgets.

- **Restructuring of Budgets**

This section draws attention to any major restructuring of Unit budgets. Details of the 2001/02 situation are noted and are followed by the changes for 2002/03.

- **New Capital Initiatives**

Like the new operating initiatives these items were not allowed for in the long term financial model. They may reflect a response to changed conditions or they may relate to meeting health and safety requirements.

This format change is intended to highlight in summary form the significant changes for each sub budget.

- **Operating Summary and Budget**

On the summary pages the output classes are in upper case and in bold. Outputs which are a subset of output classes are in lower case. Where there are sub outputs, the outputs are in upper case but not in bold.

Capital expenditure is termed “Capital Outputs” and is shown “below the line” on the summary page.

For the operating budgets the output class is identified in the header at the top of the page.

The budget text has been prepared at either the output class or output level. The text consists of a brief description of the output class or output, the objectives for 2000/01 and the performance indicators. The performance indicators assess performance in relation to the objective(s).

On the budget pages direct costs are those costs which relate directly to the output. Transfers from the suspense account(s) represent the outputs share of joint costs. Joint costs may include labour costs, superannuation, ACC and office expenses. While labour and labour related costs may be transferred on an hours worked basis, other allocated costs may be transferred on a capacity or usage basis.

- **2002/03 Capital Section**

This section of the budget details the capital outputs (or capital expenditure). Capital expenditure has been grouped under the following “output headings”:

- Renewals and Replacements. (Maintaining existing assets necessary to sustain agreed levels of service.)
- Asset Improvements. (Capital expenditure that improves or adds to the level of service of existing assets.)
- New Assets. (Works or purchases creating wholly new assets.)

Where a capital item straddles two or more outputs, the majority rule has been applied. (eg. If it is 80% renewal and 20% improvement, it has been placed in the renewal class.)

- **10 year Capital Programme**

This section projects capital expenditure forward for the next 10 years. Whereas the first five years are detailed on a line by line basis, the remaining five years are general provisions which are not supported by detailed projects.

- **Fees Schedule**

Although now at the back of each Unit plan and budget, the fee schedules are of no less importance. As was the case in previous Corporate Plans, managers have been asked to calculate the projected revenue from the fees as a percentage of total cost. This has been included in the schedule in order to highlight those services which are not fully recovered by fees.

STATEMENT OF FINANCIAL MANAGEMENT POLICIES

In 1994 the Council adopted a Financial Management Policy which provided a framework for ensuring that the Council's long term programme was financially sustainable. Elements of this policy are now required by the Local Government Act. A summary of the Financial Management Policy is noted below:

Principles and Policy

The following principles underlie the policy on financial and debt management:

- Debt repayment programme over 20 years to ensure inter-generational equity.
- 56% of average annual capital expenditure for year 1 (rising in steady progression over the next 10 years to 66%) to be funded from depreciation and operating surpluses.
- New asset net additions funded both from loans and internal financing.
- Operating expenditure will be funded from operating revenue.

1. Operating Surpluses

The operating surpluses are calculated using a formula. The surpluses for the first four years of the Plan will be:

Year	Dollar provision for surplus in the 2003 Plan
2002/03	\$15.71M
2003/04	\$8.38M
2004/05	\$1.78M
2005/06	\$3.00M

2. Reserves and Sinking Funds

Provision by way of reserve/sinking fund will be made each year for repayment of all new loans raised by the Council, plus the existing debt of Christchurch City Holdings Ltd. The provision is based on no less than 3% of the amount borrowed and a repayment time frame of 20 years for each loan.

3. Financial Ratios

- (a) Net interest paid on term debt by the Council and Christchurch City Holdings Ltd combined will not exceed 8% of the consolidated gross revenue, provided interest rates do not increase above 8.5%. This parameter is subject to review in the event of interest rates rising above this level.
- (b) Term Debt as a percentage of total assets of the Council and Christchurch City Holdings Ltd shall be no more than 12%.
- (c) Term Debt as a percentage of realisable assets (includes net trading enterprise investments but excludes Infrastructural and Restricted Assets) shall be no more than 33%.

- (d) Net debt to funds flow from operations shall not exceed five times, ie an ability to repay debt over five years (medium term) before net capital additions.

(Note: Funds flow from operations is the net cash surplus of gross revenue over operating cash expenses (excludes depreciation).

- (e) The liquidity ratio (current assets: current liabilities) shall be not less than 1:1 at each year end. (Note: Current assets excludes for this purpose cash investments relating to specified reserve funds and current liabilities excludes the current portion of term debt.)

4. Operating Expenditure

The operating expenditure of the Council shall be met from operating revenues.

5. Infrastructural Asset Expenditure

Sufficient expenditure will be applied to maintain the existing infrastructural asset base at least to current standards or to standards adopted through an asset management programme.

6. Depreciation

Cash generated from revenue derived to meet depreciation charges will be applied for funding renewal works in the first instance followed by capital works and debt reduction.

7. Application of Cash Surpluses

Cash surpluses in excess of budget from any year will be applied to reduce the borrowing requirement of the subsequent year.

SUMMARY OF THE FUNDING POLICY

Introduction

Under Section 122N of the Local Government Act, the Council is required every three years to prepare and adopt a funding policy. The Funding Policy was adopted in July 2001 and was published as part of the 2002 Financial Plan. (Copies can be obtained from the Civic Offices or at www.ccc.govt.nz.) A summary of the Policy is noted below. Also noted below are the adjustments which have been made as part of finalising this Plan.

Funding Policy Process

The Local Government Act describes in detail the process to determine the funding for all activities or functions of the Council.

The Act identifies three types of expenditure and how each type of expenditure should be funded:

- (1) Expenditure which gives rise to general benefits may be funded from rates. General benefits do not accrue to identifiable persons or groups of persons but benefit the community generally.
- (2) Expenditure which gives rise to direct benefits should be funded by contributions from the persons or categories of persons who benefit from that expenditure.
- (3) Expenditure necessary to control negative effects should be funded by those whose action or inaction caused the negative effects to occur.

The Act also identifies considerations which may, if the local authority so chooses, allow the local authority to modify the allocation of costs arrived at above.

- The obligation of the local authority to act in the interests of its residents and ratepayers.
- The fairness and equity arising from any allocation of costs.
- Any lawful policy of the local authority, to the extent that allocating costs may effectively promote that policy.
- Provide for transition from an existing funding regime to a new funding regime.

Finally, the Act allows the local authority to consider issues of practicability and efficiency when choosing funding mechanisms.

Details of the Funding Policy

The Council plans to fund its services for the 2002/03 financial year as follows (2000/01 and 2000/02 are included for comparison purposes):

	2000/01	2001/02	2002/03
User Charges	35.22%	33.39%	33.50%
Grants and Subsidies	3.72%	4.20%	4.11%
Net Corporate Revenues	16.72%	17.56%	17.32%
Capital Value Rating	40.13%	40.88%	41.24%
Uniform Annual Charge	4.21%	3.97%	3.83%

In adopting the 2002 Funding Policy, the Council resolved to avoid significant difficulties for the residential and rural sectors by making the following modifications:

- transferring \$1.89M of costs to the commercial sector
- transferring (\$1.15M) of costs from the residential sector
- transferring (\$640,000) of costs from the rural sector
- transferring (\$100,000) of costs from institutions

The above modifications were to be phased out over three years subject to the impact of the next rating revaluation.

The impact of the revaluation (which will apply from 1 July 2002) would have resulted in a very significant rate increase (21.58%) for the Rural Sector. In order to mitigate this impact, the Council resolved to leave the rural modifier at the same level as last year. The other modifiers, however, have been reduced and in the case of the institutions phased out altogether.

The impact of the modifier changes are summarised below:

Rating Sectors	Rates Increase Without Modifier	Original Modifier	Rates Increase	Amended Modifier	Rates Increase
Commercial/Industrial	-0.09%	\$1,890,000	4.42%	\$841,667	1.92%
Residential	4.38%	(\$1,150,000)	3.35%	(\$196,667)	4.20%
Rural	40.77%	(\$640,000)	11.98%	(\$645,000)	11.76%
Institutions	3.43%	(\$100,000)	-3.63%	0	3.43%

The different sectors will experience changes to their rates over the 2001/02 rates as follows:

- Commercial/Industrial +1.92%
- Residential +4.20%
- Rural +11.76%
- Institutions +3.43%

The summary table on the next page shows how the costs and benefits and modifications to the cost of benefits have been calculated. Also included is the funding to be received from user charges, grants and subsidies, net corporate revenues, capital value rating and the uniform annual general charge.

SUMMARY OF THE FUNDING POLICY

The budgeted costs of the benefits the Council proposes to provide in 2002/03, and their proposed funding, are shown in the following table:

		Users	Residential	Commercial	Rural	Institutions	Totals
Costs							
48.99%	General Benefits	0	115,443,443	31,292,766	4,003,854	7,443,555	158,183,618
50.55%	Direct Benefits	130,340,052	11,828,210	20,727,549	258,056	50,555	163,204,421
0.46%	Negative Effects	1,496,124	0	0	0	0	1,496,124
		131,836,176	127,271,653	52,020,314	4,261,909	7,494,110	332,884,163
Modifications							
	Transfer User Costs to Rating	(23,685,000)	19,921,969	3,265,258	29,255	468,519	0
	Non-Rateable	0	5,045,691	1,375,892	185,080	(6,606,663)	0
	Avoiding Sudden Changes (Modifier)	0	(174,815)	748,148	(573,333)	0	0
		(23,685,000)	24,792,845	5,389,298	(358,999)	(6,138,144)	0
Total Costs and Modifications		108,151,176	152,064,498	57,409,612	3,902,911	1,355,965	322,884,163
Funded By							
33.50%	User Charges	108,151,176	0	0	0	0	108,151,176
4.11%	Grants and Subsidies	0	5,376,596	7,777,577	127,462	0	13,281,634

BORROWING MANAGEMENT POLICY

1 Introduction

This policy has been established to ensure the prudent financial management for the issuance and management of Council debt.

The policy incorporates the requirements of the Local Government Act and should be read together with the Investment Policy. Together they form the Treasury Management Policy of the Council.

This policy is for the Christchurch City Council and includes the Christchurch City Council Sinking Fund Commissioners. For the purposes of limiting total debt levels of the Council and financial management ratios, the debt levels and liquid investments of Christchurch City Holdings Ltd, parent only, (a 100% owned holding company) are added to the Council figures.

To determine the scope of this policy, the definition of terms used shall be that of the Local Government Act and Accounting Standards in force.

Standard and Poor's has provided a joint credit rating for both the Council and Christchurch City Holdings Ltd. The rating is AA (Long Term) and A1 (Short Term). It is an objective of this policy that the ratings at this level be maintained as a minimum.

2 Principles

The following principles underlie the policy:

- 2.1 Borrowed funds will be used to fund capital expenditure and investment. An allowed exception is for working capital overdraft under section 4.12. Debt will be used as a residual funds source after funds generated from depreciation are applied to renewal and new capital expenditure. The mix of debt and revenue funding for capital funding will be determined by the Financial Plan each year.
- 2.2 Debt raised will be repaid over the economic life of assets restricted to a maximum of 20 years to ensure inter-generational equity.
- 2.3 Interest costs are part of operating expenditure and will be funded from operating revenue.
- 2.4 The annual debt repayment provision will be funded from operating revenue.
- 2.5 Interest rate exposure will be managed consistent with the aim to:
 - have interest costs where possible at or below interest rates projected from time to time in the Council's Long Term Financial Strategy or the rates determined to be economically feasible for specific assets funded
 - hedging is only allowed for debt in place (or part thereof) or where there is a commitment to borrow in the near future and not for speculative purposes
 - remain risk averse
 - maintain a mix of both fixed and floating rates, where appropriate, to maintain flexibility and advantage in case of interest change.
- 2.6 Debt financing is recognised as a component in the Council's Funding Policy and Long Term Financial Strategy to provide inter-generational equity which prevents costs being incurred by the current generation which are for the benefit of future generations.

3 Limits on Total Borrowing

- 3.1 The forecast interest rate payable on external debt intended to be raised by the Council in the ensuing year will be budgeted for and disclosed in the Financial Plan.
- 3.2 Total external debt as a percentage of total assets of the Council and Christchurch City Holdings Ltd, parent only, shall be no more than 12%.
- 3.3 The total external debt of the Council and Christchurch City Holdings Ltd combined as a percentage of realisable assets (all assets excluding infrastructural and restricted assets) shall be no more than 33%.
- 3.4 Net interest paid on term debt by the Council and Christchurch City Holdings Ltd combined will not exceed 8% of the consolidated gross revenue provided interest rates do not rise above 8.5%. Should rates rise then the Council will approve a further limit to contain interest costs.
- 3.5 The ratio of net external debt of the Council and Christchurch City Holdings Ltd combined to funds flow from operations shall not exceed five times, ie an ability to repay debt over five years (medium term) before net capital additions.

Note: Funds flow from operations is the net cash surplus of gross revenue over operating cash expenses (excludes depreciation).

4 Borrowing

- 4.1 All external debt of the Council including financial leases must be authorised by resolution of the Council.
- 4.2 The aggregate amount the Council determines as not being so significant as to require specific authorisation under Section 122Z (c) (ii) (A), is \$500,000.
- 4.3 Loans raised by the Council are to be secured by a charge on Rates revenue.
- 4.4 Except as qualified in section 4.6 below, new loans raised in any particular year are to be no greater than the amount disclosed in the Financial Plan for that year and applied only to capital projects and investments listed in the Financial Plan.
- 4.5 Borrowing will be applied to project funding after utilisation of other capital funding identified in the Financial Plan in accordance with the principle set out in section 2 above.
- 4.6 All new loans required to fund expenditure which has arisen subsequent to the Financial Plan being confirmed shall require Council approval by a specific resolution of the Council including the reasons why expenditure was not included in the Financial Plan.
- 4.7 Debt may be raised in either fixed or floating rate terms, and for short (ie up to one year) or long maturity terms subject to limits.
- 4.8 The term of a loan must not be longer than the economic life of the capital assets it funds (as defined by the Council resolution) and in any event no more than 20 years.

- 4.9 A loan may be raised in several tranches for terms less than 20 years. Repayments at maturity of a tranche within the term of a loan may be refinanced without further Council resolution. Refinancing loans shall not add to the term of the original loan.
- 4.10 For new loans, the Council must consider the risks of borrowing including a sensitivity analysis to changing interest rates.
- 4.11 The borrowing resolution shall define who has the authority to raise loans. Should it be silent then authority is granted to staff as defined in section 9.2 below.
- 4.12 Unless the Council resolves to the contrary and subject to any instruction issued by the Director of Finance, the Funds Accountant may raise loan funds by way of bank overdraft to cover short term cash shortfalls limited to a maximum of \$2m. Borrowing under this clause is not subject to the constraints of clauses elsewhere in this policy.

The Director of Finance may from time to time issue guidelines and instructions on the raising of overdraft funds up to the \$2m limit. Any overdraft so raised shall be reported to the Director of Finance within two working days. For the purposes of this clause the term “short-term” means for terms of less than one year.

5 Repayment of Debt

- 5.1 Debt may be repaid by one or a combination of:
- Annual Sinking Fund instalments where the Sinking Fund Commissioners hold the funds as a separate trust, for the Council, for the sole purpose of debt repayment of specific loans.
 - Annual Contributions to a Loan Repayment Reserve to be held by the Council for the sole purpose of applying at appropriate opportunities to repayment or reduction of loans.
 - Annual table repayment instalments providing for full repayment over the term of a loan being 20 years or less.
 - Repayment from revenue or other sources.
- 5.2 With the exception of table loans, a minimum of 3% of the aggregate of the initial external debt raised by the Council and Christchurch City Holdings Ltd, combined, shall be repaid annually in accordance with one or a combination of the options set out in 5.1 above. Initial Debt is defined as the original sum of any loan borrowed which has not been fully repaid.
- 5.3 The rate of 3% shall be reviewed from time to time to ensure that with accumulated interest earnings on invested funds that sufficient funds are available to repay each initial loan tranche at the end of 20 years. At all times 3% shall be a minimum.
- 5.4 Sinking Funds and Loan Repayment reserves may be applied to earlier repayment of loans in conjunction with refinancing of tranches. In such cases the annual contributions to sinking funds or loan repayment reserves shall be recalculated to ensure that sufficient funds will be on hand to ensure repayment of the balance within the 20 year time frame.
- 5.5 When the repayment provision for any specific loan has been fully funded, no further contributions will be required for that loan.
- 5.6 The Funds Accountant, after consultation with the Director of Finance and the Company Secretary of Christchurch City Holdings Ltd, may select the specific debt to be repaid in any one year to optimise the mix of debt types retained within the group.

6 Interest Rate Exposure

- 6.1 The interest rate policy of the Council is to manage the exposure to adverse interest rates consistent with the need to have interest costs, where possible, at or below interest rates projected from time to time in the Council's Financial Plan or Long Term Financial Strategy or the rates determined to be economically feasible for specific assets funded.
- 6.2 The Funds Accountant may implement an interest rate strategy with interest rates higher than that budgeted, where this is supported by an interest rate view and strategy formed under the procedures of 6, 7, 8, and 9 below.
- 6.3 The Council may have an exposure to both fixed and floating interest rates. Fixed Rate Debt may vary between 35% and 100% of total debt maintained by either direct borrowing under these terms or by interest rate hedging. There is a preference for fixed rate borrowing to fund long term asset acquisition.
- 6.4 The Funds Accountant shall be authorised to enter into interest rate hedging contracts to avoid an exposure to adverse rates based on the interest rate view.
- 6.5 All hedging contracts are only to protect the actual debt and debt planned to be raised. Speculation is not permitted.
- 6.6 All hedging contracts are to be discussed with the Director of Finance and in his absence with the Funds and Financial Policy Manager prior to being entered into and reported to the Director of Finance immediately following (the same day) the transaction is entered into and to the Strategy and Finance Committee quarterly.
- 6.7 Hedging can only take place with counterparties who have a long term credit rating of 'A-' or better.

7 Liquidity Policy

- 7.1 The debt maturity profile shall be maintained so that no more than 35% of the relevant debt matures in either of the current or following fiscal year unless the total relevant debt outstanding is lower than \$30,000,000. The relevant debt is the total external debt for the Council but excludes any leases, table loans, and floating rate short term loan issues.
- 7.2 Where possible, maturity dates should be spread throughout the year.

8 Credit Exposure

- 8.1 Hedging can only take place with counterparties who are credit rated 'A-' or better.
- 8.2 Settlement for new loans shall be by cleared funds.
- 8.3 Loan raising should be managed so that the impact of settlement default will not adversely affect the Council.

9 Management by Staff of the Borrowing Policies

- 9.1 All external debt must be authorised by the Council except that under section 4.12 (working capital overdraft). Staff shall have evidence of such approvals before any debt is raised.
- 9.2 Authority is delegated (under this Policy Statement) to the Funds Accountant and in his absence, any one of the Director of Finance, Funds and Financial Policy Manager, Financial Analyst, and the Financial Services Manager to raise external debt funds and to enter into hedging contracts on terms he may determine within the limits and guidelines of this Policy Statement. The day-to-day management and actions may be undertaken by the Funds Accountant, but the responsibility for overview lies with the Director of Finance.
- 9.3 The Funds Accountant shall form a view on future interest rates based on independent professional advice. The view shall be revised at least quarterly. Action to change the Council's fixed, floating interest rate profile shall be based on that view.
- 9.4 The Director of Finance shall appoint a Treasury Review Team to assist on the formation of interest rate views and Borrowing management strategy. The Treasury Review Team shall approve and maintain guidance notes and instructions developed for the proper management of Council's Debt under this policy.
- 9.5 A specific debt raising resolution may require joint delegations for action. If so then the more restrictive delegation shall be followed.
- 9.6 There shall be appropriate segregation of duties amongst staff involved in borrowing and investing of Council funds and this shall be subject to audit review.
- 9.7 The Funds Accountant shall maintain the register of charges and shall file with the Registrar of Companies a copy of the debt instrument from time to time.
- 9.8 Actions taken under the Borrowing Policy are to be reported to the Director of Finance at least weekly, and to the Strategy and Finance Committee quarterly. The actions requiring reporting are:
 - Debt Servicing Costs, both budgeted and actual
 - Comment on Interest Rate Exposure
 - Debt Maturity Profiles and expected timing of Debt Raising
 - Total Debt Raised (including financial leases)
 - Hedging Contracts taken up since the last report
 - Hedging and Derivative Contracts in place at the time of the report

INVESTMENT POLICY

1 Introduction

This policy has been established to ensure prudent financial management of Council investments.

The policy incorporates the requirements of the Local Government Act and should be read together with the Borrowing Management Policy. Together they will form the Treasury Management Policy of the Council.

The policy is for the Christchurch City Council and includes the Christchurch City Council Sinking Fund Commissioners. Investments held by subsidiaries (LATEs) are excluded.

To determine the scope of this policy, the definition of terms used shall be that of the Local Government Act and Accounting Standards currently in force.

The Council proposes to invest \$75M of capital repatriation funds due to be received from Christchurch City Holdings Ltd in mid 2001 in a separate fund known as the Capital Endowment Fund. It is intended that the fund be divided into capital of \$71.5M and fluctuation reserves of \$3.5M and that the capital of this fund will be held intact together with sufficient income capitalised annually to cover inflation. The fluctuation reserve will vary depending on returns from investments. The balance of the income will be available to the Council to provide for economic development projects and civic and community projects that will enhance the city or region.

The Council resolution creating the Capital Endowment Fund is attached as Appendix B.

2 Principles

The following principles underlie the policy:

- Investments shall be managed to maximise the return to the Council consistent with the purpose of the investment and risk avoidance.
- The Council shall maintain a prudent mix of investments.
- Council investment management shall as far as possible be risk averse.
- Investments made outside of the policy require specific resolution of the Council.
- Interest rate exposure and yields on investments are to be managed according to practices outlined in this policy. Hedging, if used, is to cover the protection of the actual physical investment and its return.
- For the Capital Endowment Fund the investment objectives are:
 - Maintain the real value of the capital of the Fund with regard to inflation.
 - Maximise the value of the Fund and therefore the amount that can be distributed from the Fund over the long term, subject to a prudent level of portfolio risk.
 - Maintain a degree of consistency in the amounts that can be withdrawn on an annual basis.

- To fulfil the objectives for the Capital Endowment Fund the following investment principles will be followed in addition to those elsewhere in this policy:
 1. Responsibilities under common law and statute must be met. The following policies will be interpreted and applied subject to this policy.
 2. The inflation-adjusted capital of the Fund shall not be withdrawn.
 3. An appropriate level of portfolio risk will be determined and accepted by the Council in consultation with professional advisors.
 4. An appropriate level of diversification of investments in portfolios across securities, sectors, asset classes and countries must be maintained.
 5. The investment portfolio will accept risks in a prudent manner and investment risk will be minimised for the expected level of return.
 6. The capital of the investment portfolio will be preserved on a quarterly basis by adjusting for (positive) changes in the Statistics New Zealand All Groups CPI.
 7. An investment fluctuation reserve must be maintained to finance budgeted distributions from the Fund.
 8. Liquidity must be considered and maintained at an appropriate level.
 9. The investment structure must be able to accommodate changes in the Fund's requirements and the investment environment.
 10. All aspects of the investment process and functions will be reviewed regularly. In particular:
 - The performance of investment managers will be monitored against benchmarks at least monthly, and against the performance of other investment managers at least quarterly.
 - Investment managers will be monitored on an ongoing basis with respect to their organisational structure, investment processes and personnel.
 - Investment policies and objectives, asset allocation strategy and overall investment management structure will be reviewed at least once every three years.

3 Investment Categories Subject to the Policies - Their Purpose

The Council's investments are made for a range of purposes and fall broadly into five categories:

3.1 General Funds Investments

- 3.1.1 These investments are held for the general use of the Council in the form of financial investments for the purpose of providing general finance. Typically they are invested on a commercial basis to produce a financial return pending utilisation as funding for the Council in its ordinary course of business.
- 3.1.2 General Funds may be invested in the following investment types:
 - Cash and short term bank deposits
 - Promissory Notes issued by suitably rated corporate entities
 - Stocks and bonds
 - Loans to community organisations
 - Loans to individuals
 - Loans to Council subsidiary companies including LATEs
 - Loans to non-Council entities to facilitate community infrastructural asset creation (Council approval required)
 - Real estate being held for market return purposes only

3.2 Equity Investments in Subsidiary Companies

3.2.1 The Council holds equity investments in a range of subsidiary companies for a mix of the following purposes:

- Providing a rate of return on the investment to be used for general revenue purposes.
- Ensuring that ownership of essential infrastructural facilities with monopoly characteristics remain in community ownership.
- Separating trading activities or services from the ordinary operations of the Council in the interest of transparency, efficiency and competitiveness of pricing.

3.2.2 These investments are made up of:

- A majority interest in major utility trading enterprises through a 100% interest in Christchurch City Holdings Limited - see Schedule 1.
- 100% interest in LATEs which have been established primarily to provide service delivery to the Council on a commercial basis - see Schedule 2.
- Significant interest in trading enterprises primarily for income purposes but recognised as being of benefit to the local economy - see Schedule 3.

3.3 Property Held for Investment Purposes

- Investment properties are defined as being held for market return purposes and having no Council operational function.
- The decision to hold or dispose of investment property is driven by the performance of this investment compared with similar properties in the market.

3.4 Investment of Reserve Funds including Trust Funds and the Capital Endowment Fund

3.4.1 These reserve and trust funds have the following characteristics:

- The Council has resolved to set aside funds for a specific defined future purpose.
- The Council has defined a minimum holding of the Capital Development Reserve Fund, currently set at \$5M to provide a first source of funding available in the case of an emergency arising from a natural disaster.
- Estimates are prepared each year of the value of each separate reserve fund including revenue projections.
- These funds are available for appropriation in the Financial Plan to finance expenditure incurred on the purpose of the fund.
- The investments which make up the Reserve Funds can be held in common with General Funds investments with the earnings apportioned to each separate fund or may be invested separately with professional Fund Managers in managed portfolios of investments.

3.4.2 Reserve and trust funds may be invested in the following investment types:

- Short term bank deposits
- Promissory Notes issued by suitably rated corporate entities
- Stocks and bonds
- Loans to Council subsidiary companies
- Loans to individuals (for Council approved purposes)
- Loans to community organisations
- Shares in publicly listed companies

- Professionally managed portfolios of investments, either by direct investment or through Unit Trusts, including:
 - Equities, New Zealand wide, South Island Specific and overseas
 - Fixed Interest investments, both New Zealand and overseas
 - Short term cash
 - Real Estate
 - Other Investments the Council may from time to time resolve.

3.5 Sinking Fund Investments

- 3.5.1 These funds are held by the Commissioners appointed by the Council on trust for the repayment of Council loans in accordance with the Council's Borrowing Management Policy.
- 3.5.2 Sinking Funds may be invested in the following types of investment:
- Cash and Short Term Bank Deposits
 - Promissory Notes issued by suitably rated corporate entities
 - Stocks and bonds
- 3.5.3 Management of Sinking Fund investments shall be subject to the procedures outlined in sections 5 and 6 of this policy.

4 Types of Investments

The Council may hold the following types of investments. See other sections of this policy for restrictions on the management of each type:

- Bank deposits, bank accepted bills and bank issued certificates of deposit
- Short Term Promissory Notes issued by companies and Local Authorities as defined by section 6
- Stocks and bonds issued by Government, SOEs, Local Authorities and suitably rated Corporate entities
- Loans to Council subsidiary companies
- Loans to individuals (for Council approved purposes)
- Loans to community organisations
- Loans to non Council entities to facilitate community infrastructural asset creation as approved specifically by the Council
- Shares in (listed) public companies
- Shares in subsidiaries
- Real estate
- Professionally managed (external to the Council) portfolios of investments, either by direct investment or through Unit Trusts, including:
 - Equities both New Zealand and overseas domiciled
 - Fixed interest both New Zealand and overseas domiciled
 - Short term cash
 - Real estate
 - Other investments the Council may from time to time resolve.

5 Outline of Procedures for Management of Each Type of Investment

5.1 General Issues

- Each type of investment shall be prudently managed having regard to the purpose for which the investment was made and the needs of the Council.
- Delegated authority to act on all investments in accordance with this policy, (except Real Estate, Professionally Managed Funds, and equity investments in LATEs) is granted to any one of the Director of Finance, Funds and Financial Policy Manager, Funds Accountant, Financial Analyst and Financial Services Manager. The primary responsibility lies with the Funds Accountant.
- The Funds Accountant shall form a view on future interest rates based on independent professional advice. The view shall be revised at least quarterly and shall be used to guide investment strategy.
- The Director of Finance shall appoint a Treasury Review Team to:
 - assist on the formation of interest rate views
 - advise on investment management strategy
 - approve and maintain guidance notes and instruction developed for the proper management of the Council's Investments made under this policy.
- Reporting requirements by the Funds Accountant:
 - Report daily to the Director of Finance - Hedging instruments used (both in advance of any commitment and after being entered into).
 - Report weekly to the Director of Finance - showing a weekly position.
 - Report quarterly to the Strategy and Finance Committee - on the performance results of the investment portfolio excluding shares in subsidiary companies and returns on real estate which will be reported separately as detailed elsewhere in this policy.
- A division of duties between the staff making and checking on the investment transactions is to be maintained to provide for checks on the prudent handling of investment funds.

5.2 Short Term Liquid Investments - Bank Deposits and Promissory Notes

Investment of this type will be managed on the following basis:

- The objective is to minimise the holding whilst having regard to liquidity needs and investment return.
- Invested in authorised bank instruments in accordance with the criteria outlined in section 6 of this policy.
- Compliance with the policy rules on acquisition, disposal, and the settlement process in accordance with the criteria outlined in section 6 of this policy.
- Interest Rate risk management has an objective to maximise yield based on the interest rate view formed by the Funds Accountant as outlined in section 5.1 of this policy.
- The maturity profile of investments will be based on the need for cash funds derived by the daily liquidity needs forecast.

5.3 Long Term Financial Investments of Authorised Stocks and Bonds

- The objective is to maximise the holding whilst having regard to liquidity needs and investment return subject to the size of funds available for investment and the maturity profile matched to the expected need for liquid funds.
- To minimise credit risk, the investments with any one issuer are subject to the limits as defined in section 6 of this policy.

- The interest view, formed by the Funds Accountant, together with the yield and maturity profile of the investments will form the basis of determining action required. In addition, the Funds Accountant is authorised to use hedging instruments to change the interest rate exposure and to change the financial impact of the terms of the investment asset.
- The Council will seek to maximise yields either by primary investment or incidental arrangement.
- The procedures on acquisition, disposal, and the settlement process is set out in section 6 of this policy.

5.4 Loans to Council Owned LATEs

- Loans to LATEs shall be made only after Council authorisation of the total amount, source of funds, security and the general terms.
- The Director of Finance is authorised to determine the specific terms and conditions of the loan, the maturities and interest cost.
- The administration of the loan investment can be delegated to staff as per section 5.1.

5.5 Loans to non Council entities to facilitate community infrastructural asset creation

- Examples of this type include the Belfast Industrial Pressure Pipeline loan.
- Loans shall be made only after Council authorisation.
- Such authorisation shall include the total amount, source of funds, security and the general terms.
- The Director of Finance is authorised to determine the specific terms and conditions of the loan, the maturities and interest cost.
- The administration of the loan investment can be delegated to staff as per section 5.1.

5.6 Loans to Individuals, and to Community Organisations

- These are subject to authorisation by the Council (or Committee if delegated) either on a one-off basis or by class (for example, the drainage conversion loans).
- The funding source will be nominated in each case, mainly Reserve Funds, to avoid the need for Rate funding.
- If the source of funding is a specific Reserve Fund set up for the purpose of making loans (eg the Community Loans Fund), the loans made will be limited to the quantum of that fund.
- If the source is the Capital Development Fund then the funds available will be limited to 20% of the funds in excess of \$5M. \$5M is required as the minimum liquid cash reserve.
- If the source of funds are unspecified Reserve Funds, ie other than the specific loan Reserve Funds, Capital Development Reserve or Debt Repayment Reserves and other specific short term reserve funds, then the maximum which can be invested in loans from these sources is 10% of the available funds. (Note: The Victory Park lighting Loan is excluded as this will be merged with the redevelopment loan.)
- Interest rate to be charged is set by the Council as either a policy decision or on a case by case basis. In the absence of specific instruction, then at no less than the Council's estimated cost of borrowing plus a margin (1% minimum) for administration and risk.
- The Funds Accountant is to prepare loan documentation as required based on legal advice as to form and procedure.
- Security of Loans will generally be a charge on the borrower's land unless specified as being unsecured (as in the case with some community organisations) in which case such other security as the Council, Director of Finance, or the Funds Accountant may determine as being appropriate for this class of loan.
- Loan Guarantees to protect repayment shall be obtained if directed by the Council or if in the opinion of the Director of Finance or the Funds Accountant it is considered to be prudent for a loan of this type.

5.7 Equity Investments in LATEs and Subsidiaries

- Investment in shares in subsidiary companies will be made on the authorisation of the Council only after the receipt of professional advice on valuation and acquisition procedures.
- The Council will not involve itself directly in the management of its subsidiary companies. Management services may be contracted by the companies from Council staff.
- Each company which is defined as a LATE in the Local Government Act will be required to prepare annually a Statement of Corporate Intent which sets out the activities and strategic direction of each company, and to report in accordance with the Statement of Corporate Intent and the reporting requirements for LATEs in the Local Government Act.
- Christchurch City Holdings Limited is an investment monitoring company established by the Council to hold its significant trading enterprises on behalf of the Council. The Board will comprise a mix of Councillors and external directors with a majority of Councillors.
- Regular monitoring will be carried out by Christchurch City Holdings Limited (CCHL) of the ownership options, business strategy and operating plans, capital structure and risk management affecting the CCHL subsidiaries and other subsidiaries where the shareholding is held directly by the Council.
- Investment performance of subsidiary companies will be assessed in comparison to the performance of other similar companies in the same industry.
- The CCHL Board will report at least six times a year to the Council's Strategy and Finance Committee on the issues arising from its monitoring role. Ad hoc briefing sessions and seminars for Councillors will also be arranged.
- The Council is responsible for the approval of Statements of Corporate Intent and the appointment of directors for all subsidiaries held directly by the Council and directly by CCHL.
- Directors of all subsidiary companies will be selected according to the policy established by the Council in June 1996.
- Ownership of shares in subsidiaries may be transferred to CCHL when a subsidiary has an established record of financial performance and it is Council policy to retain the investment in the long term.
- This policy does not apply to non-trading companies which are held solely for the purpose of land ownership (eg Travis Group).

5.8 Shares in Listed Public Companies

- Specific authorisation is required by the Council to invest directly in listed equities except in the case of professionally managed portfolios as outlined in 5.10 below.
- There is to be an annual review by a broker to assess price, total value and hold or sell advice.
- Trading is authorised to rationalise a holding and on the advice of a broker. Normally taking up cash issues, sale of rights etc will be subject to advice.
- Staff listed in section 5.1 are authorised to enter into transactions.
- Low value transactions may be actioned by the Funds Accountant without further authority.

5.9 Real Estate Held for Investment Purposes

- Acquisition or sale decisions on investment property shall be made by the Council.
- The properties should be managed in accordance with professional property management principles for the administration and maintaining of properties.
- The Property Manager will maintain accurate records for all individual investment properties including income and expenditure which will then be used for measuring performance of the investment.
- Management principles will be in accordance with prudent commercial terms and conditions effective in the market from time to time.
- The Property Manager will ensure compliance with all relevant statutes.
- The decision to hold or dispose of investment property is driven by the performance of a specific investment compared with similar properties in the market.
- The Property Manager is to report to the Council on a six monthly basis on the performance of all investment property.

5.10 Professionally Managed Portfolios

- Investments in professionally managed (external to the Council) portfolios may be made for Capital Endowment Fund and other reserve fund investments.
- The initial selection of fund managers will be made by the Council's Strategy and Finance Committee on recommendation from the Treasury Review Team after receipt of professional advice.
- Significant decisions relating to Fund Manager appointments will normally be subject to Strategy and Finance Committee approval but the Treasury Review Team is authorised to act on urgent issues and report to the next meeting of the Strategy and Finance Committee.
- Immediately following the initial selection of fund managers the Council will approve appropriate management guidelines for the ongoing management of the Fund and the level of delegated authority to the Treasury Review Team for ongoing decisions relating to these investments.
- The Treasury Review Team shall:
 - Take account of and consider the objectives of the funds, management guidelines, the appropriate level of risk to be accepted and the reserve retention policy of the fund as agreed by the Council from time to time.
 - Recommend to the Council the quantum of funds which are available for distribution in any year after provision for inflation protection and management of the fluctuation reserve.
 - Monitor the performance and compliance of investment managers.
 - Develop and implement appropriate periodic reporting to the Council.

6 Assessment and Management of Risks by Type of Investment

6.1 Authorised Bank Instruments

The Council may invest in any registered bank in New Zealand subject to the following:

- The bank remains the primary debtor throughout the term of the investment.
- Investments will only be in banks with a Standard and Poor's short term credit rating of A-3 or better and a long term credit rating of A- or better (equivalent Moody's ratings may be used).
- A maximum of 20% of the total investments issued by the financial market (which is made up of short term bank deposits, promissory notes and long term stocks and bonds including those issued by other Local Authorities and Government Stock) may be invested with any one bank except where the total bank investments are less than \$10M, when the investments shall be made with at least two banks.
- Any instrument issued by the bank may be taken up.
- Deposits may include foreign currency to meet Council commitments in overseas currencies.

6.2 Authorised Stock or Bond Investments

The Council may invest in any fixed term stock or bond issued in New Zealand subject to the following:

- Up to 100% of the available funds may be invested where the stock is issued by the New Zealand Government or State Owned Enterprise guaranteed by the Government.
- Up to 20% of the available funds may be invested in Civic Bonds issued by the Local Government Finance Corporation as these are backed by rate secured investments in Local Authorities.
- Up to 100% of the available funds may be invested where the stock is issued by a Local Authority (not CCC or CCC LATEs) and is rate secured, but subject to a maximum 20% of the total investments (see 6.1) with any one issuer.
- Up to 35% of the available funds may be invested where the bonds are issued by any company in New Zealand subject to the issuer having a Standard and Poor's long term credit rating of A- or better (equivalent Moody's ratings may be used) and subject to a maximum 20% of the total investments (see 6.1) with any one issuer.

6.3 For the Purchase, Sale, and Settlement of Bank Deposits, Stock and Bonds and Listed Public Company Shares

The Funds Accountant and in his absence others listed in section 5.1 have authority to deal in these investments, taking on the authorities of the Funds Accountant, subject to the procedures outlined below and detailed elsewhere in this policy:

6.3.1 Making Investments:

- Bank deposit and promissory notes investments are normally made after three quotations are received.
- The Council is not bound to take the highest bid, nor shift funds from one bank to another where reasonable grounds exist to make an alternative decision (eg to maintain a spread of deposits between banks).
- Investments in stock or promissory notes issued under a tender shall be made with the advice of a broker or professional adviser retained by the Council.
- Investments in stock or promissory notes by direct purchase shall be made on the advice of a broker.
- Settlement to be made by direct credit, cheque or by direct debit.

6.3.2 Recording of Investments:

- Investments made are to be recorded in separate balance sheet asset accounts.
- A division of duties is to be maintained to provide for checks on the prudent handling of investment funds.
- Daily records of cash monitoring and investment decisions shall be maintained.
- Accrued income on a yield to maturity basis is to be calculated and actioned monthly.

6.3.3 Income Recognition:

Income is to be recognised on a yield to maturity basis, with the purchase yield used for both capital values and accrued income. This is applicable as the Council:

- normally selects an investment to match a maturity profile based in the main on an expected need for funds
- would not normally sell the investments earlier unless there is a need for funds
- would not wish short term variation in market interest rates to change the income flows over time from the same investment.

6.3.4 Withdrawal or sale of bank deposits, promissory notes, bonds, and listed equity investments:

- Repayment shall be by cleared funds to minimise the settlement risks.
- The principal proceeds are to be credited to the asset account on the balance sheet with appropriate income recognition.
- Funds are either reinvested or they form part of the liquidity of the Council. In either case the full value is recognised in the equity of the Council. Capital gains or losses are recognised as income and disposed of along with all other income as per the Financial Plan.
- Revenue from any investment is dealt with under the Financial Plan along with all other revenues.

6.4 Purchase, Sale and Settlement of Real Estate Investments

- All acquisitions and disposal decisions are to be made by the Council on advice of the Property Manager.
- The property disposal procedures approved by the Council from time to time shall be used for investment property disposals.
- Sale and purchase contracts in the normal form will be used.
- Investment properties are to be recorded as assets in the financial records and have similar treatment to other assets.

6.5 Purchase, Sale and Settlement of Subsidiary Company Investments

- In general terms it is the intention of the Council that a majority ownership in these investments will be retained in the long term.
- Any decision to dispose of shares in a subsidiary which would reduce the Council's shareholding to less than 50% will be made only after public consultation as set out in the Local Government Act.
- Where existing assets of the Council are transferred to a new LATE, an Establishment Unit will assess all the options and recommend the methodology, value and other matters according to the established procedure set out in the Local Government Act.
- External professional advice will be sought before making any decision to acquire or dispose of any shareholding in any of the subsidiary company investments.

6.6 Purchase of Promissory Notes issued by New Zealand Companies and Local Authorities

The Council may invest in Promissory Notes issued in New Zealand by Corporates and Local Authorities in New Zealand currency provided they have throughout their term a Standard and Poor's short term credit rating of A-3 or better (or equivalent Moody's rating).

- The term would generally be no more than 180 days.
- The interest rate must be better than Bank deposits for the same term to indicate a preference for Promissory Notes.
- For registered Promissory Notes the note must be held in the Council's name.
- For 'bearer' Promissory Notes, the certificate may be held by the Council or by a suitable agent such as a Bank or Austraclear.
- To avoid the Council being exposed to settlement risk, payment on maturity or sale requires settlement by 'Cleared Funds'.

6.7 Investments in Professionally Managed Investment Portfolio

- Professionally managed (external to Council) investment portfolios may be used for Reserve Fund investments in accordance with guidelines approved by the Strategy and Finance Committee from time to time. In considering the selection of any managed portfolio to minimise income and capital risk, the following shall be considered (along with any other relevant consideration):
 - The selection of the professional Fund Manager based on performance and competence.
 - The diversification of the asset class.
 - The expected return of each asset.
 - The volatility of return, both in the past and expected.
- The Council's tolerance to risk.
- The appropriate reserve retention level necessary to preserve the fund value and earning potential.
- The income distribution expectations of the Council.
- The management of the investment, once made with an (external to Council) professional Fund Manager, shall be handled entirely by that Fund Manager. Therefore the restrictions stated elsewhere in this policy governing the selection and handling of direct investments shall not apply.
- It is recognised that title to the underlying investments will be with the Fund Manager who will handle the investments on the Council's behalf. The Council will receive an acknowledgement of its interest in the investment pool.

APPENDIX A**EQUITY INVESTMENTS IN SUBSIDIARY COMPANIES****Schedule 1**

A majority interest in major trading enterprises through a 100% interest in Christchurch City Holdings Ltd

Orion Group Limited	87.625%
Christchurch International Airport Limited	75%
Lyttelton Port Company Limited	65.55%
Red Bus Limited	100%

Schedule 2

Interest in LATEs which have been established primarily to provide service delivery to the Council on a commercial basis

City Care Limited	100%
Christchurch City Facilities Limited	100%
Travis Finance Limited and Subsidiaries	100%
Jade Stadium Limited	100%
Transwaste Canterbury limited	37.85%

Schedule 3

Significant interest in enterprises primarily for income purposes recognised as being of benefit to the Council and the local economy

Selwyn Plantation Limited	39.32%
---------------------------	--------

APPENDIX B**CAPITAL ENDOWMENT FUND - COUNCIL RESOLUTIONS**

The following is extracted from resolutions passed by the Council in March and July 2001 which record the intentions of the Council relating to the management and investment of the Capital Endowment Fund:

- That \$75 million be allocated to a long-term fund, to be known as the Capital Endowment Fund, the income to be applied for the benefit of current and future generations.
- That \$3.5 million of the initial capital be further allocated within the fund as an income fluctuation reserve.
- That the income from the Capital Endowment Fund be applied to:
 - (i) maintaining the value of the fund after inflation; and
 - (ii) providing for economic development projects (70%) and civic and community projects (30%) that will enhance the city or region.
- That the capital of the Capital Endowment Fund not be used by the Council for any other purpose without a vote in favour by an 80% majority of the Council.
- That to maintain accountability for the protection of the capital and use of the proceeds of the Capital Endowment Fund, the structure of the Fund be outlined in the Council's Funding Policy and reported on separately in the Financial Plan and Annual Report of the Council.

STATEMENT OF RATING INFORMATION

Rating Policy is based on the Funding Policy

The application of the Funding Policy determines the allocation of rates to sectors and therefore the rates on each property. For information on the Funding Policy please refer to the summary on page 1.1.21. For more details on the Funding Policy refer to the relevant section in the Strategic Statement. (Available at the Civic Offices or at www.ccc.govt.nz).

Rating Overview

The rating system provides the net funding requirement for the Council's programme as set out in this Financial Plan.

Rates are levied as a tax on property in compliance with the statutory provisions of the Rating Powers Act (1988).

Property values were revised in September 2001.

Rates of \$145.51M (exclusive of GST) will be levied for 2002/03. This is an overall increase in the rate requirement of 3.70% over 2001/02 after taking into account the growth in the rating base.

Rate Types

It is planned to levy the following rates. (The figures noted below are inclusive of GST):

• General rates	\$108,493,891
• A Uniform Annual General Charge	\$13,902,420 (\$105 per property)
• Separate rates for:	
- Water	\$12,063,214
- Sewerage	\$17,952,139
- Land and Stormwater Drainage	\$11,290,989

Rate Type Descriptions

General Rates

General Rates are levied on capital values according to the Funding Policy. General rates (including the Uniform Annual General Charge) provide for approximately 74.77% of the total rate requirement of the Council, being the net rate requirement after separate rates are determined.

Uniform Annual General Charge

A portion of general rates is levied as a uniform annual general charge of \$105 per rateable assessment, payable irrespective of property values.

The uniform charge is levied to recover costs which have been determined in the funding policy to:

- provide benefits which are people related;
- have a reasonable correlation between the number of properties and the spread of benefits in the community; and
- to be uniformly consumed by the inhabitants of the community.

Separate Rates

Separate Water Rate. This rate is levied on properties in the serviced area to recover the costs of water supply. Connected properties pay full water rates, non connected pay half rates.

User Charges based on metered consumption are also made for water consumed by properties, other than private residential properties. An allowance is made for the amount of water rates charged.

Separate Sewerage Rate. This rate is levied to recover the costs of sewerage on all properties within the serviced area.

Separate Land Drainage Rate. This rate is levied to recover the costs of land drainage from ratepayers within the land drainage district.

Differential Rating

Differential rating is applied to both General Rates and Separate Rates levied on Capital Values. The quantum of rates required from each sector (Residential, Commercial/Industrial, Rural, and Non Rateable) is based on the Funding Policy allocation which is derived from an analysis of each Council output. The sector requirement for each rate type is then applied to properties within each sector, based on the relative capital values.

The differential sectors are:

Sector A - Commercial and Industrial Properties

Any separately rateable property which is:

- (a) used for a commercial or industrial purpose (including travellers and special purpose accommodation, offices and administrative and associated functions, and commercially owned and operated utility networks); or
- (b) vacant land zoned commercial, industrial or rural industrial under the transitional district plan administered by the Council.

Sector B — Residential and Other Properties

Includes any separately rateable property which is:

- (a) used for residential purposes (including home ownership flats); or
- (b) vacant land zoned residential or rural residential under the transitional district plan administered by the Council; or
- (c) Council operated utility networks; or
- (d) land not otherwise classified under sectors A, C or D.

Sector C - Rural Properties

Includes any separately rateable property which is:

- (a) used solely or principally for:
 - (i) agricultural or horticultural or pastoral purposes; or
 - (ii) for the keeping of bees or poultry; or
- (b) zoned rural under the transitional district plan administered by the Council, but does not include any separately rateable property which is:
 - (i) zoned rural industrial or rural residential under the transitional district plan administered by the Council; or
 - (ii) zoned rural and used principally for residential purposes (including home ownership flats).

Sector D — Institutions (Non-Rateable)

These are properties which are deemed not to be rateable properties pursuant to Sections 4, 5 and 6 of the Rating Powers Act 1988.

Although this sector is exempt from paying general rates, it is still liable for separate rates for water and sewerage.

Rates for 2002/03 will be shared among the ratepaying sectors as follows:

Sector A - Residential	71.48%
Sector B - Commercial/Industrial	26.11%
Sector C - Rural	1.52%
Sector D - Institutions	0.89%

The different rating sectors will experience changes to their rates over the 2001/02 rates as follows:

- Residential	+ 4.20%
- Commercial/Industrial	+ 1.92%
- Rural	+ 11.76%
- Institutions	+ 3.43%

Rating by Instalments

The Council provides for rates to be paid in four instalments, with instalment one generally equal to the previous year's instalment four. A ratepayer may elect to pay the whole of the year's rates in one sum before instalment two due date without additional charges.

Additional Charges

An additional charge of 10% will be added to each instalment which remains unpaid after its due date. Previous years' rates which are unpaid will have 10% added firstly in October 2002 and, if still unpaid, again in April 2003.

Additional Charges may be remitted in accordance with the following criteria:

- (a) All applications must be in writing.
- (b) All rates must be paid in full, as a general rule, before remission is considered.
- (c) Remission will generally be given where late payment has arisen due to sickness, death, age or other acceptable genuine reasons.
- (d) No additional charge will be added where payment is received over the counter on the day following due date or through the mail on the second day following the due date.
- (e) Remission of second and subsequent additional charges where satisfactory arrangements are in place for regular payment of arrears.
- (f) Remission on payments made within five working days of due date, where there is no substantiated reason for remission, up to a maximum of one such remission every two years.
- (g) Remission in respect of commercial, professional or industrial properties will generally not be granted other than once every five years.
- (h) The remission of penalty on current year's rates may be granted where an agreed arrangement for payment is in place which is in excess of the current year's rates.

Postponement of Rates

Statutory provision exists for the Council to remit or postpone rates in cases of extreme financial hardship. The Council has a policy of considering the postponement of rates where hardship exists. Postponed rates are a charge against the property and must be paid either at the end of the postponement term or when the property is sold.

Generally applicants will be over age 65 but consideration will be given in other special circumstances of need.

Interest will be charged on postponed rates for new applicants at the Council's cost of capital rate, currently 7.2%, without incurring additional charges.

Environment Canterbury

The Council acts as agent for the collection of rates for the Environment Canterbury (Canterbury Regional Council) which determines its own rate levels. This policy does not refer to those rates.

Actual Rates Payable – 2001/02 Actual and the 2003 Financial Plan Compared

Capital Value	Year	General Rates		Water Rates \$	Land Drainage \$	Sewerage Rates \$	Total \$
		Uniform Charge \$	By Capital Value \$

	2001/02	105	1,156	208	183	317	1,969

Notes:

- (1) Fully serviced properties, and includes a Uniform Annual General Charge of \$105 per property.
- (2) Includes GST and does not include the Canterbury Regional Council Rates.
- (3) 2001/2002 = 2002 Actual rates payable
2002/2003 = 2003 Financial Plan.
- (4) These tables make no allowance for Capital Value changes as a result of the recent revaluation.

STATEMENT OF ACCOUNTING POLICIES

Statement of Reporting Entity

The Christchurch City Council is a territorial local authority formed under the Local Government Act 1974 (as amended).

Measurement Base

The measurement base adopted is that of historical cost as modified by the revaluation of certain assets.

Specific Accounting Policies

The following specific accounting policies which materially affect the measurement of financial performance and the financial position have been applied:

(a) Fixed Assets

Fixed assets have been divided into three broad categories:

(i) Operational Assets

Operational assets include land, buildings, furniture and office equipment, fixed plant, vehicles and mobile plant. Operational assets are valued at depreciated replacement value at either 30 June 1991 or 30 June 1992 with additions recorded at cost. The only exception is land and buildings that are revalued to fair value on an existing use basis every three years. All operational assets with the exception of land are depreciated and details of the depreciation methods and rates are noted below.

(ii) Infrastructural Assets

Infrastructural assets are the fixed utility systems. They include roads, footpaths, bridges, traffic signals, water, sewerage and drainage systems.

Stormwater Infrastructural Assets have been valued using the optimised depreciated replacement cost method at 30 June 2002, by Meritec Limited. Sewerage Infrastructural Assets have been valued using the optimised depreciated replacement cost at 30 June 2000 by the City Solutions Unit of the Council and peer reviewed by Opus International Consultants Limited and Beca Valuations Limited. Roading and Water Reticulation Infrastructural Assets (including Traffic Signals and Bus Shelters) have been valued using the optimised depreciation replacement cost method at 30 June 2001 by Meritac Limited. Land under roads was valued at 30 June 1992, by Quotable Value NZ for rating purposes.

(iii) Restricted Assets

Restricted assets cannot be disposed of because of legal and other restrictions. They include:

- Land and buildings with restrictions on sale - eg, Reserves
- Trust Housing
- Library books - New Zealand Collection
- Properties held in trust for other organisations
- Works of Art

Restricted assets are not depreciated except for Trust Housing and Historic Buildings. These assets are valued on the same basis as Operational Assets except for Works of Art that have been valued at market value by the Senior Curator of the Christchurch Art Gallery as at 30 June 2000.

(b) Depreciation

Depreciation is provided in respect of an operational or infrastructural asset. Depreciation is included in each cost of service statement and is an accounting method for writing off the cost of an asset over its estimated useful life. Where it is not shown as a line item it is disclosed by way of note.

(i) Operational Assets

Depreciation is on a straight line basis for all operational assets other than mobile plant. Mobile plant is depreciated on a diminishing value (DV) basis. The following lives have been used:

Buildings	15 - 100 years
Office and Computer Equipment	4 - 5 years
Motor Vehicles / Motorised Plant	2 - 16 years
Mobile Plant	7.5 - 50% DV
Leasehold Land Improvements	10 - 100 years
Library Books	3 - 10 years

(ii) Infrastructural Assets

Expenditure on infrastructural asset replacement and renewal is capitalised. Disclosure is in the capital expenditure summary immediately below the Cost of Service Statement on each of the significant activity pages (see pages 49, 69, 87 and 90). The expensing of these assets is by way of depreciation. This is calculated using the long run average renewals approach (LRARA). This approach has been used for the following assets:

Sewer, Stormwater and Water Systems and Associated Plant, and Water Meters.

A 50 year period has been used to calculate the average renewals expenditure for the Water Supply network, 30 years for the Wastewater network and 20 years for Stormwater.

Roading infrastructural assets (roads, street lighting, traffic signals, bridges and bus shelters) will from 1 July 2002 be depreciated on a straight line basis. This change from LRARA to straight line will increase the overall depreciation provision by \$51,350. The following economic lives have been used:

Roading	2 - 90 years
Streetlights	25 years
Bridges	70 or 90 years
Bus Shelters	40 years

(iii) Restricted Assets - The only restricted assets that are depreciated are:

Trust Housing	1% of valuation
Historic Buildings	1% - 4% of valuation

(iv) Assets under Construction

Assets under construction are not depreciated. The total cost of a project is transferred to the relevant asset class on its completion, and then depreciated.

(c) **Landfill Aftercare Costs**

As operator of the Burwood Landfill, the Council has a legal obligation to provide ongoing maintenance and monitoring services at the landfill after closure. To provide for the estimated cost of aftercare, a charge is made each year based on volumes processed through the landfill.

The estimated cost is calculated based on estimates of:

(i) Total current cost

This is defined as the amount that would be paid if all equipment, facilities and services included in the estimate were acquired during the current period. The estimate has been based on costs of closure of similar landfills by other local authorities.

(ii) Total capacity

The estimated length of time needed for post-closure care is 30 years.

The Council also has a legal obligation to provide ongoing maintenance and monitoring services for the closed landfill sites of the former amalgamating authorities. The estimated future costs to perform this obligation have been accrued and charged.

The calculations assume no change in the legislative requirements for closure and post-closure treatment.

(d) **Debt Servicing**

Significant Activities are charged a share of the Council's actual borrowing costs. These costs are apportioned on the book value of the Operational and Infrastructural Assets employed at 1 July 2002.

(e) **Goods and Services Tax (GST)**

GST has been excluded from all budgetary provisions except for rental housing, accounts receivable and accounts payable.

(f) **Cost Allocations**

The costs of all internal services are allocated or charged directly to external service type activities.

Internal service type activities provide support for the external service activities.

Where the user of a service can be identified, for example with City Solutions, the cost recovery is made by way of direct charge. Where this has not been possible, the costs are allocated by way of corporate overhead.

The basis of the corporate overhead allocation is reviewed each year and every attempt is made to relate the allocation made with the service utilised.

Internal service costs which are allocated out as corporate overhead include Corporate Services and Financial Services.

(g) **Revenue recognition**

Rates revenue is recognised when levied. Water billing revenue is recognised on an accrual basis. Unbilled sales, as a result of unread meters at the year end, are accrued on an average basis. Transfund roading subsidies are recognised as revenue upon entitlement, that is, when the conditions related to eligible expenditure have been fulfilled. Other grants and bequests and assets vested in the Council, are recognised as revenue when control over the assets is obtained. Dividends are only recognised as income, net of imputation credits, when the dividends have been declared and have or are almost certain to receive the necessary shareholder approval.

(h) **Research and Development Costs**

Research and development costs are expensed in the period incurred. Development costs are deferred where it is probable that future benefits will exceed those costs. Deferred development costs are amortised over future periods in relation to expected future revenue.

(i) **Inventories**

Inventories are valued at the lower of cost and net realisable value. Cost is determined by FIFO or weighted average methods.

(j) Investments

Subsidiaries, except for Christchurch City Holdings Ltd (CCHL) associates and shares in the Local Government Insurance Corporation Limited and New Zealand Counties Investment Company Limited are valued by the share of equity as per the latest Statement of Financial Position. Shares in CCHL are valued at independent market valuation.

(k) Donated Goods and Services

The Council receives the benefits of many services provided by volunteers. These services are greatly valued. They are however, difficult to measure in monetary terms. From an accounting point of view these services are not considered material in relation to the Council's total expenditure.

Vested land is included at current value and Infrastructural Assets are included at the cost to the subdivider.

(l) Leases**(i) Finance Leases**

These leases effectively transfer all the risks and benefits of ownership to the lessee. Finance Leases are included in liabilities at their current value.

Assets purchased under such leases are included in fixed assets and depreciated at usual rates.

(ii) Operating Leases

Under these leases, the lessor effectively retains all the risks and benefits of ownership. These lease payments are charged as expenses in the periods in which they are incurred.

(m) Employment Entitlements

Provision is made in respect of the Council's liability for gratuity allowances, and annual and long service leave. The liabilities for leave have been calculated on an actual entitlement basis at current rates of pay. The retiring gratuity liability has been assessed on an actuarial basis.

(n) Third Party - Transfer Payment Agencies

The Council collects monies for many organisations including Environment Canterbury, Building Industry Authority and others. Where collections are processed through the Council's books, any monies held are included in the Accounts Payable figure in the Statement of Financial Position.

(o) Projected Cost of Service 2003/04 and 2004/05

The projected cost of service for 2003/04 and 2004/05 relates only to operating expenditure. The projections do not include fixed asset purchases or capital expenditure on infrastructural assets. Details of these costs can be found under the Five Year Capital Expenditure Programme (see pages 121 to 142 of the Financial Plan).

(p) Comparative Figures

Certain comparative figures have been restated to reflect changes in presentation.

(q) Income Tax

The income tax expense charged to the Statement of Financial Performance includes the expense and the income tax effects of timing differences. This has been calculated using the liability method.

(r) Financial Instruments

The Christchurch City Council is party to financial instrument arrangements as part of its everyday operations. These financial instruments include Banking Funds, Bank Deposits, Short Term Investments, Accounts Receivable, Sinking Fund Investments, Accounts Payable and Term Debt.

Revenues and expenses are recognised in the Statement of Financial Performance.

All financial instruments are recognised in the Statement of Financial Position, with the exception of Guarantees and Contingent Assets and Liabilities. Any income or expenditure arising from the exercising of a Guarantee, or upon a contingency becoming an actual asset or liability, will be recognised in the Statement of Financial Performance at the time of confirmation.

The following methods and assumptions were used to value each class of financial instrument:

- (i) Accounts Receivable are recorded at estimated realisable value.
- (ii) Short Term Investments are valued at fair value.
- (iii) Investments in Government and Local Authority Stock are valued at cost with premiums paid or discounts taken on acquisition amortised over the life of the investment. Income is recognised on a yield to maturity basis.
- (iv) Share investments, gifted in trust, are valued at fair value.
- (v) Loans to various sporting and cultural organisations are recorded at fair value.
- (vi) All other financial instruments, including Cash and Bank balances, Accounts Payable and Term Debt are valued at fair value.

(s) Investment and Development Property

The Council has no properties purchased or acquired for the primary purpose of earning capital gains or rental income.

(t) **Financial Reporting Standard No. 29 (FRS 29) Disclosures**

In accordance with the Institute of Chartered Accountants of New Zealand Financial Reporting Standard 29, the following information is provided in respect of the Long Term Financial Strategy:

(i) **Cautionary Note**

The Long Term Financial Strategy and financial information is prospective. Actual results are likely to vary from the information presented, and the variations may be material.

(ii) **Nature of Prospective Information**

The financial information has been prepared on the basis of best estimate assumptions as to future events which the Council expects to take place.

The financial information presented consists of both forecasts and projections. The financials for 2002/03 are forecasts which reflect the most probable outcome. The financials for 2003/04 and subsequent years are projections. They are based upon varying assumptions about the conditions that might exist and possible courses of action.

(iii) **Assumptions**

The principal assumptions underlying the forecasts and projections are noted in the Long Term Financial Strategy Section of the Strategic Statement. These assumptions were valid as at 16 July 2002, the date the Financial Plan and Programme was adopted.

(iv) **Extent to which Prospective Information Incorporates Actual Results**

Although the period covered by the Long Term Financial Strategy contains no actual operating results, some financial information has however been extrapolated from the Council's audited Financial Statements as at 30 June 2001.

(v) **Purpose for which the Prospective Information is Prepared**

The Long Term Financial Strategy is in accordance with the Local Government Amendment Act (No. 3) 1996. The purpose of this legislation is to promote prudent, effective, and efficient financial management by local authorities.

Changes in Accounting Policies

Depreciation on Roading infrastructural assets has been changed from LRARA to Straight Line Depreciation. For further details of this change see Specific Accounting Policies (b) Depreciation (ii) Infrastructural Assets. All other policies have been applied on a basis consistent with those in previous years.

Policy Change Statement

To meet the requirements of Sections S223(1)(a) and (b) and (3)(b) of the Local Government Amendment Act (No. 3) 1996, it is stated that at this time the Council and its related organisations will have similar policies and objectives in 2002/03 and 2003/04. Where relevant, significant changes between the policies, objectives and activities proposed for 2002/03 and those for 2003/04 are described.

CONTRA AGREEMENTS (1)

Unit	Company Name	Provision	Value (12 Months)	Details	Expiry Date
Geodata	Telecom (Connectel) Orion (Connetics) Rockgas Distributors Service Electrix Frank Millar Ltd Independent Line Services Design Net Ltd Telstra/Saturn	Service Facility Maps	\$5,000 (approx)	Free exchange of maps detailing underground lateral and reticulation services	By agreement. (1) The term ‘contra’ is used to cover any agreements for supply of services or goods to the Council in exchange for services or goods such as advertising, signage, etc.

THE CAPITAL ENDOWMENT FUND

Background

In April 2000, Orion New Zealand Limited, the Council's energy company (87.6% owned by the Council), sold its North Island gas network and related assets. The gross proceeds of the sale were \$550M and the net gain on sale was some \$187M.

The Council's share of the amount being returned to shareholders is \$175M. The Council resolved to apply \$100M of this to debt reduction and the balance of \$75M to be invested in a protected long term fund called the Capital Endowment Fund.

The Fund is ring-fenced from the Council's other funds in order to protect the capital and provide an ongoing income stream to be used for economic development and civic and community projects. In establishing the Fund the Council resolved:

- That up to 100% of the available income from the fund be allocated in year 1 and up to 75% be allocated for subsequent years.
- That the income from the fund be allocated each year in the following way:
Economic development - 70%; Civic and community projects 30%.
- That the above general categories be reviewed on a three yearly cycle.
- That if desired, funding for a particular category be carried forward to another year.
- That civic and community projects which have a cost of less than \$100,000 in any one year not be funded from the Capital Endowment Fund.
- That no single project be funded for more than three years, except in exceptional circumstances.
- That the capital of the fund will not be used unless 80% of the Councillors vote in favour.
- That a statement in the Council's funding policy and long term financial strategy will outline the structure and purpose of the fund.
- That the intention is to protect the capital and the process of applying the income to projects for the benefit of the community.
- That the Council will establish a practice of reporting on the fund in its Financial Plan and Annual Report as a separate activity each year including any significant variations to the policy.

Investment Objectives

The Council will invest the assets of the fund in a broad range of investments designed to achieve the following objectives:

1. Maintain the real value of the capital of the fund with regard to inflation.
2. Maximise the value of the fund and therefore the amount that can be distributed from the fund over the long term, subject to a prudent level of portfolio risk.
3. Maintain a degree of consistency in the amounts that can be withdrawn on an annual basis.

Investment Policies

The Investment Policies adopted by the Council to achieve the above objectives are:

1. Responsibilities under common law and statute must be met.
2. The inflation-adjusted capital of the fund shall not be withdrawn.
3. An appropriate level of portfolio risk will be determined and accepted by the Council in consultation with professional advisers.
4. An appropriate level of diversification across securities, sectors, asset classes and countries must be maintained.
5. The portfolio will accept risks in a prudent manner and investment risk will be minimised for the expected level of return.
6. The capital of the portfolio will be preserved on a quarterly basis by adjusting for changes in the Statistics New Zealand All Groups CPI.
7. An investment fluctuation reserve must be maintained to finance budgeted distributions from the fund. (\$3.5M of the initial capital will be further allocated within the fund as an investment fluctuation reserve).
8. Liquidity must be considered and maintained at an appropriate level.
9. The investment structure must be able to accommodate changes in the fund's requirements and the investment environment.
10. All aspects of the investment process and functions will be reviewed regularly. In particular:
 - The performance of investment managers will be monitored against benchmarks at least monthly, and against the performance of other investment managers at least quarterly.
 - Investment managers will be monitored on an ongoing basis with respect to their organisational structure, investment processes and personnel.
 - Investment policies and objectives, asset allocation strategy and overall investment management structure will be reviewed at least once every three years.

The Council has resolved that a target of up to 10% of the Fund should be invested in South Island owned or based companies consistent with prudent investment practice.

CAPITAL ENDOWMENT FUND - FUNDING ALLOCATIONS

	2002/03	2003/04	2004/05
	\$	\$	\$
Estimated Total Available Income From Fund	2,915,000	3,045,129	3,108,032
Less not to be allocated until later years (25%)		(761,282)	(777,008)
Total available for allocation this year	2,915,000	2,283,847	2,331,024
Economic Development (70%)	2,040,500	1,598,693	1,631,717
Less already allocated:			
Central City Project Team	(100,000)		
Unspecified Economic Development	(1,765,500)		
Domestic Marketing Campaign	(175,000)		
Balance available for Economic Development Projects	0	1,598,693	1,631,717
Civic and Community 30%	874,500	685,154	669,307
Less already allocated:			
Unspecified Community Projects*	(142,000)	(100,500)	
Special Character Area Precinct Upgrade	(200,000)	(200,000)	
Canterbury Museum Trust Board Building and Development Project Grant	(532,500)	(532,500)	(732,500)
Balance available for Civic and Community Projects	0	(147,846)	(33,193)

*Unspecified provision for 2002/03 and 2003/04 to be accumulated and not specified out until at least 2004/05.

EQUAL EMPLOYMENT OPPORTUNITIES MANAGEMENT PLAN

Charter for Diversity (Incorporating EEO Policy)

(Reference to the Local Government Amendment Act No. 2, 1989 Section 119f and 119g).

Diversity

The Christchurch City Council is committed to a culture of diversity aimed at recognising, acknowledging, valuing, celebrating and utilising the diversity of people in our organisation and community.

Elements that contribute to diversity include age, aspirations, class, country of origin, gender, learning styles, personality, physical ability, language, professional experience, race, religion, beliefs, sexual orientation, socio-economic backgrounds, ethnicity and work styles. Diversity includes all ways in which people differ.

Processes and procedures will be regularly reviewed in terms of method and output for recognising, acknowledging, valuing, celebrating, utilising, and benefiting from the variety of backgrounds of people employed in such a way as to add value to the work of the Council.

Our organisational culture “Giving Value – Being Valued” is the written statement of the way we aim to do things and the way we aim to work together which promotes, values and advances diversity within the organisation.

Principles of Diversity

Christchurch City Council’s Charter for Diversity establishes the principles of our understanding and approach to diversity in the organisation as follows:

1. All of us in Christchurch City Council should have an equal opportunity to contribute to, and participate in, the objectives of the Council’s work.
2. Each of us in teams and units should respect and accommodate the diversity, culture, language and religion of each other within the organisation.
3. Each of us has the opportunity to realise the full potential of our own individual development in the context of the Council’s activities through participation in, and contribution to, the Council’s services to the community.
4. Individuals, teams and units should recognise the diversity of our people as a valuable resource and utilise and promote it to maximise our contribution to the people and community of Christchurch.

Diversity and Good Management

Managing for diversity requires a focus on three broad areas.

- Valuing diversity
- Employment equity
- Good management practice

- **Valuing Diversity**

Valuing diversity means promoting and utilising the advantages and benefits of difference within the workforce.

The outcomes of valuing diversity include improved: team work, individual performance, customer service, customer relations, staff relations and the reduction of conflict.

People and organisations who value diversity are interested in identifying and overcoming barriers that prevent effective interaction between people, and in creating a work environment which welcomes and fosters diversity.

- **Employment Equity**

Employment equity means recognising, supporting and promoting the right of all people to have genuine access to all levels and types of employment in our organisation. It also recognises that our aim is to make decisions in our workplace which will be fair and equitable.

- **Good Management Practice**

Good management practice encourages, emphasises and acknowledges the benefits of diversity within the workforce.

Managers, teams and people who operate effectively do so by implementing strategies for the utilisation of diversity.

We all need to be prepared to embrace diversity and accept change as a norm in order to realise the full potential of diversity for our future.

Christchurch City Council supports flexible work practices and employment arrangements to support diversity in the workplace.

Equal Employment Opportunity (EEO)

Effective diversity management practice is fundamental to achieving EEO outcomes for people at work. EEO objectives should include:

1. A level of cultural diversity in our organisation that reflects the cultural diversity of our community.
2. Promoting ethnic diversity within the Christchurch City Council reflecting the ethnic diversity of our community.
3. Providing equal access to information for all people including promotional opportunities, job related benefits, training and development opportunities.
4. Workplaces free of discrimination and harassment.
5. Aiming for all our people to have the necessary communication and management skills to work in culturally diverse environments.
