

7. COASTAL WAVE RUN-UP STUDY

The Parks Business Support Manager and Coast Care Co-ordinator reported on the results of the Christchurch Coastal Dune Wave Run-up Study. Dave East expressed a number of concerns over consultation methods undertaken and the subjective nature of the report. After some discussion the Board **decided** to accept the report and support the Coast Care programme to continue with recontouring of the dunes in the New Brighton area to 8 metres as stated in the Resource Consent.

(Dave East requested that his vote against the decision be recorded).
