

2. DEPUTATION BY APPOINTMENT

Mr David Dobbie addressed the meeting on behalf of the Burwood/Pegasus Community Board. He noted that the report of the Community Consultation Working Party had not been considered by the Board. The Board would be seeking assurances that the ocean outfall which was recommended by the working party would not adversely affect the beach environment. He requested further research on the possible impact on beaches before a decision is made. He sought further consultation on the proposals.
