

**6. CONSERVING AND RESTORING WATERWAYS
AND WETLANDS**

RR 8169

A report by the Water Services Manager detailed two big projects recently completed by the waterways and wetlands team, being:

- Conservation covenant booklet
- Restoring Avoca Valley Stream - a community model.

The Committee **agreed:**

1. That each Community Board receive an appropriate number of copies of each of the resources.
2. That stream restoration proposals follow the City Council's public consultation process.
