

8. CRICHTON COBBERS CLUB BUILDING

The Board considered a report which discussed whether the existing Business 3B zone was the most appropriate zone for the Crichton Cobbers Club building at the corner of Fitzgerald Avenue and Chester Street. The report drew the conclusion that the existing zoning was not an inappropriate zoning and that no change was necessary. This matter had arisen as a result of a meeting with the Chester Street Residents' Group.

The Board **received** the information.
