

23. PLANTING PROPOSAL FOR ST ALBANS STREET

A report from the Landscape Architect put forward a shrub planting proposal for the enhancement of St Albans Street, a boundary road with the Fendalton ward. The intention was to consult with adjoining residents and receive feedback. The Board **resolved** to allocate up to \$5,000 from its 1998/99 Discretionary Funds for planting in St Albans Street and asked that members be included in the consultation process.
