

**20. OAKMONT RESERVE -
APPLICATION TO REMOVE WILLOW TREE**

RR 8767

The Parks Manager reported in response to a request from an adjoining resident, seeking approval to remove a mature willow tree from the above reserve on safety and nuisance grounds. The report outlined the community consultation which had taken place and confirmed that the majority of residents and the Burwood/Pegasus Community Board supported the removal of the tree.

The Committee **resolved** that the tree be removed and be replaced with a suitable semi-mature tree; the variety and siting to be recommended by residents and approved by the Parks Unit.
