

14. BARBADOES STREET/BEALEY AVENUE: TREE REMOVAL RR 9612

The Committee's approval was sought to remove two trees from the traffic island in Barbadoes Street at its intersection with Bealey Avenue. The traffic island is being reduced in size to enable motorists to see traffic signal lanterns.

It was **resolved** that the removal of the two trees on the approach island on Barbadoes Street at its intersection with Bealey Avenue be approved. It is proposed that these trees be replaced by two others located in positions where there are no conflicts.
