

9. CAVE ROCK RESERVE – PROPOSED LANDSCAPE DESIGN

The Board was advised of plans for landscape enhancement of the Sumner Beach in the vicinity of Cave Rock and the On the Beach restaurant.

Design work has been undertaken by Mike Thomas of Studio 33, who has produced a concept plan which the Parks Unit wishes to present to the Sumner Community.

The Board **decided** that the publicity leaflet about landscape enhancement proposed for the Cave Rock area be distributed and comment from the community received.
