

## 2. OWAKA ROAD POND

The Board considered a presentation from Messrs Andrew Crossland and Bob Hopkins of the Water Services Unit on the opportunity to replace the existing Owaka Road Pond, and the potential to attract birdlife to the proposed new habitat.

The Community Advocate advised that both the open and public excluded sections of this report should be withdrawn, pending a full report from the Property Unit on this matter being submitted to the April meeting.

It was **decided:**

- (a) That the Board support the concept,
- (b) That the information be received, and
- (c) That a report be sought on the need for strict and regular monitoring to be undertaken to ensure compliance with the resource consent granted for the land fill.
