

## 9. AFTER SCHOOL PROGRAMMES

The Board **received** the report of a meeting held on 17 March 1999 of a Committee with power to act to investigate provision of after school programmes in its area, and adopted its recommendations as follows:

1. That the organiser of the Dynamite Bay programme be asked to provide more information within a two week timeframe in relation to the budget; how many people were covered by the wages; what administration was being referred to; what experience/training did he have in this field or was planning to take; and provide an evaluation of the programme.
2. That the Community Development Adviser become actively involved in the programme being undertaken at the Bishopdale School (as many of the participants would be children from the Papanui area).
3. That the Community Development Adviser take steps to identify a way to set up a further after school programme in the Shirley area.
