

3. ENGLISH PARK RE-DEVELOPMENT

The Community Advocate reported issues previously brought to the Board's attention that could be included in a submission on the re-development plan for English Park. The Board **decided** that a submission containing these issues be presented; that included in this submission be support for the satisfactory resolution of the land containing the right of way between 78 and 80 Trafalgar Street; and that the parts of the development shown running through adjacent private property be deleted.
