

**20. HEATHCOTE RIVER TRIAL
ROAD EDGE TREATMENT**

The Board considered a report on a proposed trial road edge treatment adjacent to the Heathcote River.

Sue Wells referred to a memorandum from Paul Dickson (Drainage Engineer) to Allan Watson (Water Services Unit Manager) wherein 1998/99 expenditure is detailed and reference made to a sculpture in Farnley Reserve.

The Board **resolved** that the trial be undertaken on a section without any road humps (in particular Aynsley Terrace, Fifield & Riverlaw Terraces) to see if speed reduction can also be achieved.
