

12. SAM STATUS

Janet Reeves spoke to a report assessing whether Special Amenity Area (SAM) status should be sought for Fifield Terrace, from Ford Road at the north boundary, to the dead end at the south.

SAMs are currently being reviewed as, apart from not appearing to fulfill people's needs, there would also appear to be some misunderstanding of them. More discussion with residents groups is required.

The Board **resolved** that the matter be deferred until more detailed discussion can take place with local residents associations and residents who are keen on having SAMs, once the City Plan has been announced.
