

21. PROPOSED NEW ROAD AND RIGHT OF WAY NAMES

The Subdivisions Officer requested Board approval for two new road names and one new right of way name. In discussion over the new road names the Board wished to reconsider the process for naming streets and roads in future subdivisions, to allow the Board more input into the process. The Board **decided:**

1. To recommend to the Environment Committee that the Council request the Subdivisions Officer to advise Community Boards of future proposed subdivisions to enable the Boards to make recommendations for future names.
2. To request the Waterways and Wetlands Unit to report to the Board on a planting programme to support the ANZAC Drive name, in conjunction with the Returned Services Association.
