

#### **4. REPORT ON INCINERATION OPTION**

RR 10447

The Subcommittee has requested that details of the incineration option investigated by the Subcommittee be available.

At a subsequent meeting of Transwaste Canterbury Ltd (TCL) a similar request was made by commissioning Woodward-Clyde to do such a report for TCL.

Further to the report Don Young advised that the Timaru District Council is seeking registrations of interest for alternatives to landfill for disposal of refuse.

It was noted that investigation by the Subcommittee had shown that waste disposal by incineration was not an option due to the scale of the operation. Mayor Janice Skurr advised that she had, in a letter to the Prime Minister, proposed that the Government consider supporting an incineration plant on a national basis.
