

12. CARAVAN/MOTOR CARAVAN DUMP POINTS

RR 10280

A proposal to introduce three caravan liquid waste dump points on roads adjacent to State Highway 1 Belfast, State Highway 1 Islington and State Highway 74 Halswell had been considered by the Riccarton/Wigram and the Shirley/Papanui Community Boards and this Committee. The Riccarton/Wigram Community Board agrees with the proposal to site points on the south side of Sabys Road between Candys Road and Quaifes Road and on the south east side of Foremans Road between Main North Road and Halswell Junction Road. The Shirley/Papanui Community Board has considered the proposed site on the east side of Tyrone Street outside a sewage pumping station north of Factory Road but is undertaking further consultation with residents in the area before making a recommendation.

The City Services Committee is concerned that the proposed sites may be too far away from main roads to encourage their use by drivers of motor caravans and has requested that more investigation be undertaken of the proposal to locate the sites adjacent to the main roads before a decision is made.
