

7. **1999/2000 CITY STREET ROADING PROGRAMME**

RR 10276

The Board **received** a report listing progress on various City Streets projects programmed to be undertaken in the Board's area during the 1999/2000 financial year.

A report was requested on the intended traffic calming proposed for Mansfield Avenue given that kerb and channel renewal was programmed in several years time.

The work currently being done in Rossall Street in the vicinity of the Holmwood Road intersection was discussed and concern was expressed at the time being taken to complete the project and the significant effect this was having on local businesses.

The Board **decided** that the City Streets Unit be requested to ensure that in its planning for, and the implementation of the capital works programme that the impacts on local businesses are mitigated as much as is possible.
