

30. ADVERTISING ON BUS SHELTERS

The Board considered a report seeking approval for the installation of advertising bus shelters within the Hagley/Ferrymead Community Board area.

In considering this matter, the Board believed that consideration should be given to a review of the policy guidelines for advertising on bus shelters before consideration was given to whether advertising bus shelters should be approved within the Hagley/Ferrymead Community Board area.

Accordingly, the Board **resolved** as follows:

1. To review the policy guidelines for advertising on bus shelters at its next meeting with a view to making recommendations to the Environment Committee.
2. To defer consideration of the present request for approval for the installation of bus advertising shelters until the October 1999 meeting of the Board, to allow the proposed review of the policy guidelines to be carried out by the Board.
