

## 26. CAMBRIDGE TERRACE “P60” PARKING RESTRICTION

The Board considered a report seeking approval for the creation of a “P60” parking restriction in Cambridge Terrace. The residents in the section of Cambridge Terrace between Kilmore Street and Barbadoes Street had requested a parking restriction to enable visitors to the area to be able to park. This is an area where there is extensive all day commuter parking.

The Board **resolved** that a parking restriction with a time limit of 60 minutes be created on the southeastern side of Cambridge Terrace commencing at a point 50 metres measured in a south westerly direction from a point opposite the southern kerblines of Peterborough Street and extending in a south westerly direction for a distance of 18 metres.
