

## 12. WASHINGTON RESERVE UPDATE

RR 10430

The Parks Manager reported, updating the Committee on progress in addressing the problems around the Washington Reserve and the pending resource consent application. The working party established by the Committee will continue to monitor activities on the park and to take action to reduce problems if and when they arise to improve the management of the park.

The Parks Unit is proceeding with the resource consent application to complete the development of the park. Prior to the process commencing all businesses will be advised of the action taken by the working group to address the problems and advising that the Council will be applying for a resource consent in the next two months.

The Committee **decided** to request officers to develop a critical path for Washington Reserve.
