

7. TURNING POINT 2000 – NATIVE TREES PLEASE! PROJECT

This report provided an update on this project and sought Board endorsement of the proposed planting sites at the Wigram-Worsley/Westmorland Spur Reserve, following a presentation to the Board in March 1998. Approximately 2,000 trees and supporting plants are proposed for each reserve site. The support and assistance of community groups will be sought for the planting.

The information was **received**.
