

9. COLOMBO STREET PEDESTRIAN CROSSING

RR 10390

The Board considered a report concerning safety problems at the Colombo Street pedestrian crossing at Malcolm Avenue.

Mrs Sturgess spoke to the Board regarding her daughter's accident which occurred on the pedestrian crossing and of her concerns for people's safety when using the crossing.

The Board **decided**:

1. That the City Streets Unit prepare a scheme plan for removing the existing zebra pedestrian crossing, extending the flush (painted) median along Colombo Street from Tennyson Street to Cashmere Road, and constructing up to two pedestrian refuge islands strategically located to assist people crossing Colombo Street.
2. That a further report be provided for consideration by the Spreydon-Heathcote Community Board at its meeting in October 1999.
3. That the Community Constable be advised of the Board's concerns relating to safety of pedestrians in this vicinity.
