Corporate Plan Output: Advice to Council	

Good progress has been made on developing proposals for the on street portion of the Interchange and the contraflow lane in Lichfield Street. These matters were the subject of discussion at a City Services seminar on 26 November.

In order to meet the targeted date of opening for the interchange of November 2000, public consultation in respect of the on street elements and bus route changes must commence early in the New Year. A report will be brought to the February meeting of the Committee.

The Committee approved the timetable submitted.

It was **resolved** that a special meeting of the Committee be held at 12 noon on 17 December 1999 to approve, for public consultation, options in respect of on street elements and bus route changes.
