

## **16. GROWING COMMUNITIES – ORGANIC RESOURCES FOR SOCIAL NEEDS**

The Board considered a report seeking its ideas, suggestions and an expression of interest in a project to maximise the use of organic resources in community style gardens and to meet a wide range of social needs.

The Board **decided** to support the concept of growing communities – organic resources for social needs in principle and to discuss it in more detail at a Community Focus Committee or Seminar meeting in the year 2000.
