

13. ORBITER EXTENSION AND REVIEW OF BUS SERVICES

The Board considered a report outlining the current review of bus services being carried out by the Canterbury Regional Council and providing the Board with the opportunity for input into the decision making process.

The Board **decided:**

1. That, before the Bromley No 23 and New Brighton Queenspark No 29 routes are confirmed, the Canterbury Regional Council be urged to undertake a thorough review of the effects of the proposed new routes, the other people affected and the needs of the users, with particular attention to the areas of Brookhaven, Raupo Street and Wandstead Place.
2. That the officers submit a list of all known community groups in the Hagley/Ferrymead area to the Canterbury Regional Council to assist its consultation process.
