

4. DRAFT SKATEBOARDING, IN-LINE SKATING AND FREESTYLE BMX CYCLING STRATEGY

A report from Leisure and Parks Unit staff sought the Board's views on the draft strategy being formulated with a view to co-ordinating the various activities within the Council to develop skate facilities. The study included interviews and consultation with key people in the city as well as skateboarders, in-line skaters and freestyle cyclists. It identified key findings and established priorities.

The Board **decided**:

1. To support the draft strategy and consider it when planning future skateboard facilities.
2. That a Working Party comprising Anne Carroll and Dennis Hills work with staff on the strategy and recommend any comments back to the Board.
