

**16. PROPOSED NOTABLE TREE SURVEY
SPREYDON-HEATHCOTE AREA**

The Board considered a request for funding to assist with the continued employment of John Thornton, who had been employed to carry out a tree survey in the Fendalton-Waimairi area under the Employment Services Ace Employment Scheme. The specified employment period prescribed in the Scheme has now come to an end, and there is insufficient funding available to continue the survey in the Spreydon-Heathcote area, as originally intended by the Parks Unit.

The Board **resolved**:

1. To allocate \$5,000 from its 1999/2000 Discretionary Fund to contribute towards the costs of conducting a tree survey in the Spreydon-Heathcote area.
2. That, notwithstanding the allocation from the Discretionary Fund, the project be considered alongside other Heritage Fund projects.
