

5. CASTLETOWN PLACE ALLEYWAY

The Area Engineer reported on a petition, as outlined in clause 2.1 of this report, requesting the closure of an alleyway between Castletown Place and Palmers Road. After some deliberation the Board believed that there were still issues to be ascertained, such as a survey of alleyway users and appropriate on-site notification of the issues. The Board therefore **decided** that a full consultation process be undertaken before a decision is made on the Castletown Place alleyway.
