

## 17. PARKLANDS COMMUNITY CENTRE ALTERATIONS

The Property Asset Officer reported to the Board on the outcomes of the investigations into the Parklands Community Centre by the Parklands Project Team, and to request the Board's support to the Budget Review Working Party for additional budget funding to extend or upgrade the facilities at the Parklands Community Centre. The Board **decided:**

1. That the report be deferred for an on-site meeting of the Community Affairs Committee to inspect the current facilities, review design plans and for the Community Advocate to further report on the financial ability of the United Sports Club to provide the suggested funding and to identify the current budget provision in the Annual Plan and Budget.
2. That the Property Unit report on other viable design options for the Parklands Community Centre within the current budget provisions of \$496,700.
